

DaVinci's InSPIRESS Continues to Dominate!!!

After competing in Alabama against schools from various corners of the country, the Da Vinci teams succeeded, altogether winning:

- 2 Open House Poster Awards
- 2 Final Review Awards
- 1 Concept Proposal Award
- 3 out of 5 possible Overall Awards

Da Vinci consolidated a landslide victory for the school's engineering department. This year, Da Vinci reaffirmed its position as the fiercest and most innovative competitor of the InSPIRESS program.

The awards were not the end of the competition. The noteworthy Overall Awards gave 3 of the Da Vinci teams the opportunity of traveling to Florida for exploring NASA's Kennedy Space Center and sharing their projects, receiving distinguishing comments from specialists in the aerospace industry, including engineers directly involved with space launches.
