Preface

To Students and Parents:

Welcome to the Burnham Wood Charter School District! This handbook ("Handbook") contains information about the Burnham Wood Charter School ("Burnham Wood") District's employment policies and practices. The organization, El Paso Education Initiative, Inc., is comprised of two districts – Burnham Wood and Vista del Futuro Charter Districts. We wish this year to be an especially productive experience for each student. For this to happen, we must all work together: students, parents, and staff. This Student/Parent Handbook ("Handbook") is designed to help us accomplish this goal.

The Handbook is an overview of our school's goals, services, and rules. It is an essential reference book describing what we expect of our students and parents, what they can expect of us, and how we will achieve our educational mission. We have attempted to make the language in this Handbook as straightforward as possible. Please note that the term "parent" is used to refer to the parent, legal guardian, or other person who has agreed to assume school-related responsibility for a student.

The Handbook is divided into six sections. The first section includes general information regarding school policies and procedures. The second section provides important health and safety information. The third section provides information about academics and grading. The fourth section is the Student Code of Conduct ("the Code"), which is required by state law and intended to promote school safety and an atmosphere for learning. Both students and parents need to be familiar with the Code. The Code is also available in the main office at each campus, and is posted on the school's website. The fifth section is especially for parents, with information regarding parental rights. Finally, the sixth section contains important notices regarding student information, computer resources, and electronic communication devices.

This Handbook is designed to be in harmony with Board of Director's policy. Please be aware that while this Handbook is updated regularly, policy adoption and revision may occur throughout the year. Changes in policy and procedure that affect Handbook provisions will be made available to students and parents through newsletters and other communications. **In case of conflict between Board of Director's policy and any provision of this Handbook, the provision that was most recently adopted by the Board of Directors will be followed.**

We ask our parents to review the entire Handbook with their students and to keep it as a reference during this school year. Parents or students with questions about the material in this Handbook should contact the Principal.

Finally, you must complete and return the last page of this Handbook – "Acknowledgement and Approval of Student/Parent Handbook" – to the school office at your campus.

On behalf of the entire District staff and community, best wishes for a great school year!

SECTION 1: GENERAL INFORMATION

1.1 Mission

Our District exists to provide each student the necessary skills needed to reach their fullest academic potential in order that they may actively contribute to the improvement of their community, their country, and the world as a whole.

1.2 Vision

Our District will teach the whole student and build character through a rigorous curriculum of Science, Technology, Engineering, Mathematics, and Fine Arts rooted in a foundation of Respect, Responsibility and Quality.

1.3 What is a charter school?

A charter school is a public school of choice operating independently of local school districts. Charter schools are nonsectarian and must follow the rules and regulations that govern civil rights, health, and safety issues. Charter schools are allotted per-student tax dollars for operating revenue and generate additional funding through private and corporate donations, as well as state and federal grants.

1.7 General Admissions and Enrollment Information

Admission and enrollment of students shall be open to persons who reside within the geographic boundaries stated in the school's charter, and who are eligible for admission based on lawful criteria identified in the charter and in state law. The total number of students enrolled in Burnham Wood Family of Charter Schools shall not exceed the number of students approved in the charter or subsequent amendments. Total enrollment may further be limited by Burnham Wood Family of Charter Schools based on occupancy limitations and code compliance requirements as deemed necessary.

Enrollment Requirements

A child who is the age of three years and not over the age of 21 years who is not a high school graduate on the first day of September of the year in which admission is sought shall be permitted to enroll if his parent, guardian, or the person having lawful control of him under an order of the court resides in the El Paso county and meets the enrollment requirements. Students will not be admitted until appropriate transfer instruments and/or documents are presented to the school principal or his representative. It is the responsibility of the parents to obtain these data.

To enroll a student in prekindergarten, the child must have reached the legal age of 3 or 4 years on or before September 1 of the current year and meet **at least one** of the following eligibility requirements:

- is unable to speak and comprehend the English language; **or**
- is educationally disadvantaged (which means a student eligible to participate in the national free or reduced-price lunch program); **or**
- is homeless, **or**
- is the child of an active-duty member of the armed forces of the United States, including the state military forces or a reserve component of the armed forces, who is ordered to active duty by proper authority; **or**
- is the child of a member of the armed forces of the United States, including the state military forces or a reserve component of the armed forces, who was injured or killed while serving on active duty; **or**
- is or ever has been in the conservatorship of the Department of Family and Protective Services (*foster care*) following an adversary hearing held as provided by Section 262.201, Family Code; **or**
- is the child of a recipient of the Star of Texas Award as: a peace officer under Section 3106.002, Government Code; a firefighter under Section 3106.003, Government Code; or an emergency medical first responder under Section 3106.004, Government Code.

To enroll a student in kindergarten, the child must have reached the legal age of 5 years on or before September 1 of the current year.

To enroll a student in the first grade, the child must have reached the legal age of 6 years on or before September 1 of the current school year. If a student is at least 5 years old on September 1 and has completed kindergarten in the public schools in another state or foreign country prior to transferring to a Texas public school, he/she may be enrolled in grade one. Students may be enrolled in first grade via testing or parent placement request as outlined elsewhere in the Student/Parent Handbook.

If a student transfers from a public school in another state or foreign country and has been enrolled and actually receiving instruction in the first grade in that state or foreign country, he/she is eligible to be enrolled in first grade provided the student was 5 years of age by September 1 of the year involved. Students in this category will not be admitted until appropriate transfer instruments and/or documents are presented to the school principal or his representative. It is the responsibility of the parents to obtain these data.

Students may be enrolled in a given grade via testing or parent placement request as outlined elsewhere in the Student/Parent Handbook.

A child placed by an agency of the state or a political subdivision with foster parents who reside in the El Paso County shall be permitted to enroll. The appropriate papers must be provided for the school principal by the foster parents.

Submission of Applications and Admissions Lottery

New student registration is accepted beginning January 1st for kindergarteners and February 1st for all others and the enrollment lottery is held later that month. Students registering after the lottery for classes that have waiting lists will be admitted in the order in which their applications were received. Returning students and their siblings may register during the month of January for the following school year. If they submit their paperwork before the end of January, they are exempt from the lottery. All students must live within the El Paso County and be five (5) years of age by Sept. 1st. In accordance, with school attendance policy, the lottery will be held the first school day in March.

If fewer applications than spots available are received, students will be offered admission on a first-come, first-served basis. If Burnham Wood Family of Charter Schools receives more applications than it has spots available in any grade level, it will conduct a random lottery. Each applicant selected during the lottery (up until all open seats are filled) will be offered admission. Once all enrollment spots have been filled by the lottery, the lottery will continue, and applicants will be placed on a waiting list in the order in which they are drawn. If a vacancy arises before the commencement of the next school year, the individual on the waiting list with the lowest number assignment will be offered admission and then removed from the waiting list.

If an application is received after the application period has passed, the applicant's name will be added to the waiting list behind the names of the applicants who timely applied. Families offered an enrollment seat will be sent a registration packet with instructions for registering. This notice will be sent **no later than April 1st**. Families must complete and return the registration packet by the published deadline in order to secure enrollment. If an enrollment offer is declined or if you do not complete the registration packet by the established deadline, your child's seat will be offered to the next potential student on the waiting list.

Exceptions to Lottery Process: Federal guidelines permit Burnham Wood Family of Charter Schools to exempt from the lottery students who are already attending Burnham Wood Family of Charter Schools; siblings of students already admitted to or attending Burnham Wood Family of Charter Schools; and children of Burnham Wood Family of Charter Schools' founders, teachers, and staff, so long as the total number of students allowed under this exemption constitutes only a small percentage of Burnham Wood Family of Charter Schools' total enrollment.

Required Documentation

When enrolling a child, the parent or guardian must provide proof of address, birth certificate, or other document suitable to verify identity and date of birth, immunization record, social security (if applicable), copy of records from school where child was previously enrolled. Documentation is not required at the time of enrollment if a child meets eligibility as a homeless student using criteria in the McKinney-Vento Act of 2001.

Documentation required:

1. Proof of Residence
2. Parent's Driver License or ID
3. Birth Certificate
4. Social Security Card (if applicable)
5. Immunization Records
6. Report Card or Grades 9-12 Official Transcripts
7. Confirmation of Withdrawal from the Prevention School

Undocumented Students

Enrollment may not be denied to children who are not legally admitted into the United States. Undocumented students may be enrolled.

Person Standing in Parental Relation

A minor student residing in the district but whose parent or guardian having lawful control shall present a power of attorney or an authorization agreement as provided in Chapter 34 of the Family Code assigning responsibility for the student in all school-related matters to an adult resident of the district.

Exclusion from Admission

As authorized by the Burnham Wood Family of Charter Schools charter and Texas Education Code § 12.111(a)(5)(A), students with a documented history of a criminal offense, a juvenile court adjudication, or other discipline problems under Texas Education Code Chapter 37, Subchapter A may be excluded from admission and enrollment in Burnham Wood Family of Charter Schools.

Documented discipline problems include truancy, fighting, prior school suspension, vandalism, alcohol, drug, or tobacco use. Determination of a student's documented history of discipline problems that will warrant the denial of admission may include any of the following sources: transfer records from prior school such as discipline records, attendance records, counselor notes, parent information, and court & probation department records as available and admissible by law.

If a student has had documented discipline problems and has overcome them for at least one school semester by successfully attending a non-disciplinary, alternative program, the Charter School may accept the student.

1.8 McKinney-Vento Homeless Education Assistance Act of 2001

Homeless children and youth are ensured specific educational rights and protections under the McKinney-Vento Homeless Education Assistance Act of 2001. "Children and youth who are homeless," as defined by this federal law, means, and includes children who:

- Are abandoned in hospitals, or are awaiting foster care placement.
- Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus, or train stations.
- Are living in emergency or transitional shelters.
- Are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative accommodations.
- Are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason.
- Have a primary nighttime residence that is a public or private place not designed as a regular sleeping accommodation for human beings.
- Lack a fixed, regular, and adequate nighttime residence.

Children who are homeless will be provided flexibility regarding certain policies and procedures, including proof of residency requirements; immunization requirements; educational program placement; award of credit; eligibility requirements for participating in extracurricular activities; continuing enrollment in the "school of origin" or enrollment in a new school in the attendance area where the student is currently residing; graduation requirements; and other related matters.

Questions concerning assistance offered to homeless students can be obtained from Taylor Glenn, 785 Southwestern Drive, El Paso, TX 79912, (915) 584-4024, tglenn@burnhamwood.org.

1.9 Student Information

Any student admitted to the District must have records, such as a report card and/or transcript from the previous school attended, to verify his or her academic standing. Verification of residency and current immunization records are also required. Every student enrolling in the District for the first time must

present documentation of immunizations as required by the Texas Department of State Health Services.

No later than 30 days after enrolling in the District, the parent and school in which the student was previously enrolled shall furnish records that verify the identity of the student. These records may include the student's birth certificate, or a copy of the student's school records from the most recently attended school. Students will not be denied enrollment if they fail to meet this requirement.

The District will forward a student's records on request to a school in which a student seeks or intends to enroll without the necessity of the parents' consent.

Food Allergy Information

The parent of each student enrolled in the District must complete a form provided by the school that discloses (1) whether the child has a food allergy or a severe food allergy that should be disclosed to the school to enable it to take any necessary precautions regarding the child's safety, and (2) specifies the food(s) to which the child is allergic and the nature of the allergic reaction.

For purposes of this requirement, the term "severe food allergy" means a dangerous or life-threatening reaction of the human body to a food-borne allergen introduced by inhalation, ingestion, or skin contact that requires immediate medical attention.

The District may also require information from a child's physician if the child has food allergies.

Food allergy information forms will be maintained in the child's student records and shall remain confidential. Information provided on food allergy information forms may be disclosed to teachers, school counselors, school nurses, and other appropriate school personnel only to the extent consistent with Board of Director's policy and as permissible under the Family Educational Rights and Privacy Act of 1974 ("FERPA").

Residency Verification

The Texas Education Code authorizes schools to obtain evidence that a person is eligible to attend public schools. To be eligible for continued enrollment in the District, each student's parent must show proof of residency at the time of enrollment. Residency may be verified through observation, documentation, and other means, including, but not limited to:

1. Consideration of additional mail addressed to the person enrolling the student or proof of submitted change of mailing address to the U.S. Postal Service office;
2. Consideration of voter's registration at the District address or proof of application for a new voter registration at the District address;
3. Consideration of evidence that the utilities were in the family's name at the residence;
4. Consideration of evidence of licensed drivers complying with DPS regulations for changing their address; or
5. Consideration of evidence associated with individual the child/child's family is living with.

Falsification of residence on an enrollment form is a criminal offense.

1.10 School Calendar

The District operates according to the school calendar adopted annually by the Board of Directors. Holidays may be used as school make-up days for days lost due to bad weather. The latest changes to the calendar will be available on the school's website.

1.11 School Day

Classes schedules are set at each campus. Students may be dropped off 30 minutes prior to the beginning of the school day. Students must be picked up no later than 30 minutes after the school day ends. They will be supervised during only this 30-minute time period.

Organized activities before and after the instructional day begins are only available for specific programs such as tutoring, musical practice, athletics, etc. Students will be given written confirmation that they are participating in said programming prior to the start date. No other students should be on the campus until 30 minutes prior to the beginning of the school day.

Students enrolled in before/after-school programming or who are signed up for supervision may be on campus before and after school, provided that all applicable fees for activities and/or supervision have been paid. These fees vary, and will be published on our website and communicated to parents.

1.12 Drop-off and Pick-up Procedures

Drop off and pick up procedures will be established at the campus level and communicated to parents and families from campus administration. All students must be dropped off and picked up ONLY in the designated areas. Parents can also park and walk to drop off and pick up their child from the designated areas. The current drop off and pick up maps are available in the front office. All such procedures are subject to change with notification.

1.13 Student Drivers and Parking

All student drivers must hold a valid driver's license and insurance. Students driving to school must park in the designated lot and have paid any required campus parking fees, if applicable. Students must display a school decal as identified by the campus administration. Students may not go to their cars during the school day. Students must also drive in a manner that is safe and does not disrupt the learning environment or school community in any way. Students who fail to follow these guidelines will have their driving privileges suspended or revoked, and may be subject to discipline under the Student Code of Conduct.

1.14 Attendance

Consistent school attendance is an essential component of each student's education. Absence from school will affect a student's ability to succeed in class; therefore, students and parents should make every effort to avoid unnecessary absences. Additionally, state law mandates compulsory school attendance for children of a certain age, and the District policy deals with attendance for course credit and a student's final grade. These laws are discussed below.

Texas Compulsory Attendance Law

The state compulsory attendance law requires that a student between the ages of six and 19 must attend school any applicable accelerated instruction programs and school-required tutorial sessions unless the student is otherwise legally exempted or excused. The District staff must investigate and report violations of the state compulsory attendance law. A student absent from school without permission from any class, from required special programs, or from required tutorials will be considered “truant” and subject to disciplinary action.

Students enrolled in prekindergarten and/or kindergarten are required to attend school and are subject to compulsory attendance requirements as long as they remain enrolled.

A student who voluntarily attends or enrolls after his or her 19th birthday is required to attend each school day. If a student 19 years of age or older has more than five unexcused absences in a semester, the District may revoke the student’s enrollment, except that the District may not revoke the enrollment on a day on which the student is physically present at school. The student’s presence on school property thereafter would be unauthorized and may be considered trespassing. Prior to revoking the student’s enrollment, the school shall issue a warning letter to the student after the third unexcused absence stating that the student’s enrollment may be revoked for the remainder of the school year if the student has more than five unexcused absences in a semester. As an alternative to revoking enrollment, the District may impose a behavior improvement plan.

Notice to Parents: *Under Texas Education Code § 25.095(a), you are hereby notified that if a student is absent from school on ten or more days or parts of days within a six-month period in the same school year, the student’s parent is subject to prosecution under Texas Education Code § 25.093; and the student is subject to referral to a truancy court for truant conduct under Texas Family Code § 65.003(a).*

The District shall notify a student’s parent if the student has been absent from school, without excuse, on three days or parts of days within a four-week period. The notice will inform the parent that it is the parent’s duty to monitor the student’s school attendance and require the student to attend school; the student is subject to truancy prevention measures under Texas Education Code § 25.0915; and that a conference between school officials and the parent is needed to discuss the absences.

Attendance for Credit or Final Grade

To receive credit or a final grade in a class, a student must attend at least 90% of the days the class is offered. These days include both excused and unexcused absences. A student who attends fewer than 90% of the days the class is offered may be referred to the Attendance Review Committee to determine whether the absences were due to extenuating circumstances and how the student may regain credit or earn a final grade.

The Attendance Review Committee will consider the following factors when determining whether there are extenuating circumstances for the absence:

1. All absences, whether excused or unexcused, must be considered, with consideration given to special circumstances as defined by the Texas Education Code.
2. For a student transferring into the District after school begins, including a migrant student, only those absences after enrollment will be considered.
3. In reaching consensus about a student's absences, the Attendance Review Committee will attempt to ensure that its decision is in the best interest of the student.
4. The Attendance Review Committee will consider whether the absences were for reasons over which the student or parent could exercise control.
5. The Attendance Review Committee will consider the acceptability and authenticity of documentation expressing reasons for the student's absences.
6. The Attendance Review Committee will consider the extent to which the student has completed all assignments, mastered the essential knowledge and skills, and maintained passing grades in the course or subject.
7. The student or parent will be given an opportunity to present any information to the Attendance Review Committee about the absences and to discuss ways to earn or regain credit.

If credit is lost or a final grade is not earned due to excessive absences, the Attendance Review Committee will decide how the student may regain credit or earn a final grade. If the Attendance Review Committee determines there are no extenuating circumstances and that credit or a final grade may not be earned, the student or parent may appeal the Attendance Review Committee's decision to the Board of Directors by filing a written request with the Superintendent or designee. The appeal notice must be postmarked to the following address within 30th days following the last day of instruction in the semester for which credit was denied: District---- 785 Southwestern Dr, El Paso, TX 79912.

The appeal notice will then be placed on the agenda of the next regularly scheduled Board of Director's meeting. The Superintendent or designee shall inform the student or parent of the date, time, and place of the meeting.

1.15 Absence and Tardiness

When a student must be absent from school, parents are asked to call the school each day the student will be absent. Upon returning to school, the student must bring a note, signed by the parent, or a medical excuse signed and dated by a provider that describes the reason for the absence. Notes should be submitted to the school registrar, and may be scanned and emailed, submitted through the District website, or faxed to the school. If a note is not received within 3 school days of the absence, the absence will be recorded as unexcused.

Because excessive absences are considered truancy under state law, the District reserves the right to take extreme absence cases to court.

The District recognizes two kinds of absences: excused and unexcused. Students and parents should read this section carefully to understand the school's expectations. Students and parents should also be aware of the school's policy regarding homework, quizzes, and tests following an absence.

Excused Absences

State law allows exemptions to the compulsory attendance requirements for several types of absences if the student makes up all work. This includes absence for the following activities and events:

- An absence resulting from a serious or life-threatening illness or related treatment that makes the student's attendance infeasible, if the student or the student's parent provides a certification from a physician licensed to practice medicine in Texas specifying the student's illness and the anticipated period of the student's absence relating to the illness or related treatment.
- An absence for a student who is 15 years of age or older to visit a driver's license office to obtain a driver's license or learner license, provided that more than one day of school may not be excused during the period the student is enrolled in high school for the purpose of (i) obtaining a driver's license or (ii) obtaining a learner license, and the school verifies the student's visit to the driver's license office in accordance with procedures adopted by the District .
- Religious holy days.
- Required court appearances.
- Activities related to obtaining United States citizenship.
- Service as an election clerk.
- Documented health-care appointments for the student or a child of the student, including absences for recognized services for students diagnosed with autism spectrum disorders, if the student comes to school or returns to school on the same day as the appointment. A note from the health-care provider must be submitted upon the student's arrival or return to campus.
- For students in the conservatorship (custody) of the state who need to attend:
 - An activity required under a court-ordered service plan; or
 - Any other court-ordered activity, provided it is not practicable to schedule the student's participation in the activity outside of school hours.

A junior or senior student may also be absent for up to two days per school year for purposes of visiting a college or university, so long as the student obtains permission for the visit from the Principal or designee, follows the school's procedures to verify the visit, and makes up any work missed due to the absence.

Students may also be excused for their appointment at the Department of Motor Vehicles to take the driving test, as long as documentation is provided.

A student may also be absent for up to two days in a school year for service as an early voting clerk, provided the student receives approval from the Superintendent prior to the absence and informs his or teachers of the absence.

Absences of up to five days will be excused for a student to visit with a parent, stepparent, or legal guardian who has been called to duty for, is on leave from, or immediately returned from certain deployments.

Additionally, the District may excuse up to four days of school for a high school student who is 17 years of age or older to pursue enlistment in a branch of the armed services of the United States or the Texas

National Guard, provided that District verifies the student's activities relating to pursuing enlistment.

For religious holy days, required court appearances, activities related to obtaining citizenship, and service as an election clerk, one day of travel to the site and one day of travel from the site shall also be excused by the District.

The only additional excused absences are for personal illness, death in the immediate family (parent, sibling, grandparent, or member of the immediate household), a school-related absence or an absence approved in advance by the campus principal or superintendent due to extenuating circumstances.

Unexcused Absences

Any absence not listed above or approved in advance by the campus Principal or Superintendent due to extenuating circumstances will be considered an unexcused absence.

Tardiness and Late Arrival

Nearly all tardiness is avoidable. If a student arrives late to school, a parent must report to the school office to complete a tardy slip. A student who is late to class by the time of the tardy bell may be assigned to detention. Repeated tardiness may result in more severe disciplinary consequences as allowed by the Student Code of Conduct.

Make-Up Work

If a student misses class for any reason, a teacher may assign make-up work that incorporates the instructional objectives for the class and that will assist the student to master the essential knowledge and skills necessary to meet subject or course requirements. Students are responsible for obtaining and completing the make-up work in a satisfactory manner and within the time specified by the teacher. Teachers will provide students and parents with additional information regarding penalties for failure to complete make-up work within the time allotted, and the process for making up tests missed due to absence.

Driver's License Attendance Verification

The Texas Department of Public Safety ("DPS") is required to verify the attendance records of a student between the ages of 16 and 18 that is seeking to obtain or renew a driver's license. In order for DPS to access this information or, in certain circumstances, for a school administrator to provide the attendance information to DPS, written parental permission must be obtained. Students may obtain the required Verification of Enrollment form from the school office.

1.16 Release of Students from School

A student will not be released from school at times other than at the end of the school day except with permission from the Principal or designee and in accordance with campus sign-out procedures. Additionally, state rules require that parental consent be obtained before a student under the age of 18 may leave campus at any point in the school day.

Because class time is important, doctor's appointments or meetings with other professionals should be scheduled at times when the student will not miss instructional time, if possible.

1.17 Closed Campus

Students are not permitted to leave campus for lunch. Parents are welcome to eat lunch with their child in the cafeteria with prior principal approval. Parents may only bring lunch for their own children. Students and adults may not bring in or give away food to other students during lunch times. No outside deliveries of food are acceptable (i.e., UberEATS, Door Dash, Grubhub, Dominos, Chick-Fil-A, Walmart, etc...).

1.18 Withdrawals

Voluntary Withdrawal

A student under 18 years of age may be withdrawn from school only by a parent. The District requests notice from the parent at least three days in advance so that records and documents may be prepared. Parents may obtain a withdrawal form from the main office. The parent shall also provide the name of the new school in which the student will be enrolled and must sign the withdrawal request to document that the student will continue to be enrolled in a school as required by compulsory attendance laws.

A student who is 18 years of age or older, who is married, or who has been declared by a court to be an emancipated minor, may withdraw without parental signature.

Withdrawing students and parents are expected to:

- Return all textbooks and checked-out materials and equipment;
- Complete any make-up work assigned;
- Pay any unpaid balance for student fees, if any; and
- Sign a release of student records.

In all cases, withdrawal forms must be appropriately completed and signed before withdrawal is complete.

Involuntary Withdrawal

The District may initiate withdrawal of a student under the age of 19 for non-attendance if:

1. the student has been absent 10 consecutive school days, and
2. repeated efforts by the school to locate the student have been unsuccessful.

Additionally, the District may revoke the enrollment of a student 19 years of age or older who has more than five unexcused absences in one semester.

1.19 Birthday Celebrations

In order to follow the Federal Nutrition Guidelines, no birthday parties involving food brought from outside the campus will be permitted. Except, store bought packaged cupcakes may be brought in for a brief class celebration at the end of the school day within the guidelines established by the campus principal. Preapproval by campus principal or designee is required prior to such celebrations. No outside deliveries of food are acceptable (i.e., UberEATS, Door Dash, Grubhub, Walmart, etc...).

1.20 Dress and Grooming

The school's dress and grooming standards are designed to teach grooming and hygiene, prevent disruption, minimize safety hazards, and provide dress and grooming standards that offers flexibility for the parent and student. Students must come to school clean and neatly groomed and wearing clothing that will not be a health or safety hazard to the student or others, and that will not distract from the educational atmosphere of the school. Students are required to arrive in proper attire every day.

As authorized by state law and the District charter, students are required to wear uniforms to school. Parents must provide their student(s) with the required uniform, except in the case of educationally disadvantaged students as provided in the Texas Education Code. the District may provide a uniform for economically disadvantaged students. A request for school assistance for purchasing uniforms must be made in writing to the Principal or designee and include evidence of the inability to pay. Further details are available in the Principal's office. A parent may choose for his or her student(s) to be exempted from the requirement of wearing a uniform if the parent provides a written statement that, as determined by the Board of Directors, states a bona fide religious or philosophical objection to the requirement.

Students who do not follow the school's guidelines for personal attire and appearance may be subject to discipline under the Student Code of Conduct. Additionally, a parent may be contacted to bring an acceptable change of clothing to school, and the student may be assigned to in-school suspension for the remainder of the day until a change of clothes is brought to the school.

The District students are expected to dress in a manner that conveys respect for their learning community and communicates a message of personal confidence and pride. The following specific guidelines must be adhered to:

According to the U.S. Department of Education and the U.S. Department of Justice, schools that require students to wear uniforms have seen an increase in school safety and attendance and a reduction in discipline problems and theft. Uniforms take away the anxieties associated with peer pressure, potential theft of expensive clothing and shoes, and gang-associated clothing and logos. This creates a more secure environment where students are able to focus solely on academics. [About School Uniform Policies/eHow.]

The Burnham Wood Family of Charter Schools has determined that uniforms provide numerous positive benefits to the students and the School. Therefore, the School requires students to wear uniforms while attending school. Students will adhere to the established dress code. Repetitive noncompliance with the school uniform code can lead to expulsion. Examples of code-compliant clothing are available in each school's office.

By purchasing uniforms from selected vendors, you will not be misled into purchasing clothing that does not meet the uniform style or requirements. For example, many non-uniform pants are cut like Jeans and many shirts are made of stretch materials. These items are not acceptable. They do not conform with the uniform style or fabric. Students will be sent home, or parents will be asked to bring a change of clothing. Please check the website for approved vendors. Remember, repeated dress violations may lead to expulsion. Furthermore, older students sometimes choose to alter their uniform clothing once they arrive

at school. They roll up their pant legs, they add excessive jewelry, they untuck their shirts, rolling up skirts, paint the bottom of their shoes and in some cases insert lenses that emit an unnatural appearance to their pupils. Parents, please monitor and discourage these unacceptable behaviors.

Burnham Wood Family of Charter Schools students are expected to dress in a manner that conveys respect for their learning community and communicates a message of personal confidence and pride. The following specific guidelines must be adhered to:

- All students should have a hunter green, navy blue, black or white polo-style shirt as identified by their grade and campus. Order forms and catalogs are available in the School office.
- Uniform style black, navy and khaki-colored slacks or shorts that fit properly at the waist and hips and belted. Students may wear uniform style walking shorts, skirts, or jumpers according to the sample styles displayed at each campus office. Students may select the designated plaid skirts as well.
- Button-down long or short sleeve, white shirts with a collar. Long sleeve polo shirts are recommended for the winter months. Students will not be permitted to layer shirts.
- Basic shoe colors of black, brown, or white.
- All Solid colored blazers, sweaters/cardigans (No hoods may be worn in the classroom. No hats or coverings that obscure a student's face unless approved by campus principal for documented religious or cultural reasons.)
- School branded hoodies allowed in limited situations as outlined by campus principal or designee. (No hoods may be worn in the classroom. No hats or coverings that obscure a student's face unless approved by campus principal for documented religious or cultural reasons.)
- All jackets must be aligned with school colors or issued by the school with school logos.
- Currently, students are not required to change clothing for PE. It is important that student's uniform fits properly for PE and that student is wearing appropriate athletic shoes.
- If ID cards are issued on campus, they are to be worn (clipped on collar, belt, or worn on a lanyard around the neck) on a daily basis. If student misplaces their ID, they will be required to buy one from the front office for a fee of \$10.00.
- Dress for any School-sponsored activity must be appropriate and in good taste for the occasion.

The following non-exclusive items have been determined to be disruptive to the learning environment and shall **not** be worn by students while at School or attending School-related functions:

- Caps or hats in the buildings
- Studded belts
- Skate shoes
- T-shirts with lewd or obscene pictures, writings, or gestures
- Body markings that are not completely covered at all times
- Facial hair must be neat and clean, no mustache, beard, goatees, etc.
- Distractive nails, nail lengths, nail polish, or nail designs
- Distractive hair color or hairstyles that provoke undue attention, defiance, distraction, including but not limited to unnatural colors, long hair that covers the eyes, face; unkempt hair.

- Revealing apparel such as spaghetti straps, tank tops, midriffs, or backless apparel

- Any clothing that is gang related
- Jeans (any color) on non-approved days
- Visible body piercing (other than ear lobes) and no excessive jewelry (i.e., dangling earrings, etc....)
- Hoods or hats worn in the classroom
- Hats or coverings that obscure a student's face (unless approved by campus principal for documented religious or cultural reasons)
- Studded jewelry or other non-jewelry items worn as jewelry (i.e., collars, leashes, etc....)
- Costumes, masks, ornamental animal like additions (i.e., furies, tails, horns, unicorn horns, etc....)
- Jeggings and leggings worn as pants

Final determinations for appropriate dress will lie solely with the school administration. Burnham Wood Family of Charter Schools will periodically review its dress and grooming policies, and make changes as needed.

While it is inevitable that there will be differences of opinion as to the appropriateness of dress, grooming, and/or determining whether or not a student's attire is disruptive or distracting to the educational environment of the school, the final determination will be made by school administration. Any student who does not comply with the dress code may be removed from the regular school setting until the student complies with this code.

1.21 Student Fees

Materials that are part of the basic educational program are provided with state and local funds at no charge to a student. Students are expected to provide their own consumable items, such as pencils, paper, pens, erasers, notebooks, calculators, headsets, etc. Students may be required to pay certain fees or deposits, including:

1. A fee for materials for a class project that the student will keep, if the fee does not exceed the cost of materials;
2. Membership dues in voluntary student clubs or organizations and admission fees to extracurricular activities;
3. A security deposit for the return of materials, supplies or equipment;
4. A fee for personal physical education and athletic equipment and apparel, although a student may provide the student's own equipment or apparel if it meets reasonable requirements and standards relating to health and safety;
5. A fee for voluntarily purchased items, such as student publications, class rings, pictures, yearbooks, graduation announcements, etc.;
6. A fee for voluntary student health and accident benefit plan;
7. A reasonable fee, not to exceed the actual annual maintenance cost, for the use of musical

 11. A fee for summer school courses that are offered tuition-free during the regular school year;
 12. A reasonable fee, not to exceed \$50, for costs associated with an educational program offered outside of regular school hours through which a student who was absent from class receives instruction voluntarily for the purpose of making up the missed instruction and meeting the level of attendance required for class credit, so long as the fee would not create a financial hardship or discourage the student from attending the program;
 13. A fee for lost, damaged, or overdue library books; or
 14. A fee specifically permitted by any other statute.

The District may waive any fee or deposit if the student and parent are unable to pay. A request for such a waiver must be made in writing to the Superintendent or designee, and include evidence of inability to pay. Details for the fee waiver are available upon request.

Families are responsible for paying all fees associated with extra-curricular programs, including clubs, parking, athletics, fine arts, University Interscholastic League ("UIL") academics, and academic supervision prior to participation.

1.22 Student Personal Belongings

Students shall be responsible for their own personal belongings while at School. Students are discouraged from wearing or bringing items that have real or intrinsic value. The School shall NOT be responsible for any personal items that are lost, damaged or stolen at School or at School-related activities. The School may not participate in investigating loss of student's personal belongings.

1.23 Textbooks and Curriculum Materials

State-approved textbooks and additional curriculum materials are provided free of charge for each subject or class, except for dual credit courses. Materials must be used by the students as directed by the teacher, and treated with care. A student who is issued damaged materials should report the damage to the teacher.

Students must return all textbooks and supplemental materials to the teacher at the end of the school year or when the student withdraws from school. Any student failing to return issued materials in an acceptable condition loses the right to free textbooks and educational materials until the student and/or parent pay for the damages. However, a student will be provided textbooks and educational materials for use during the school day. the District may reduce or waive the payment requirement if the student is from a low-income family. Release of student records, including official transcripts, will be delayed pending payment for lost or severely damaged textbooks.

A parent is entitled to request that District allow a student to take home instructional materials used by

the student. The District will honor the request, subject to availability of the instructional materials. The District may provide the student of relevant electronic instructional materials. The District will provide the instructional materials to the student in printed format if the student does not have reliable access to technology at the student's home. A student who takes home instructional materials may be required by the student's teacher to return the materials to school at the beginning of the next school day. The District is not required to purchase printed copies of instructional materials to fulfil a parent request for such purchase if the school would not have otherwise purchased such materials.

1.24 Food Service

The District participates in the National School Lunch Program and offers nutritionally balanced breakfasts and lunches. Guidelines set by the Texas Department of Agriculture ("TDA") and United States Department of Agriculture ("USDA") are followed to meet the nutritional needs of all students. Menus may be obtained at the school office.

Free and reduced-price breakfasts and lunches are available based on financial need. Information about a student's participation is confidential. See the Principal to apply. Students must apply for meal assistance each school year.

State-Mandated Nutrition Guidelines

The TDA places strict limits on any food or drink provided or sold to students other than through the District's food and nutrition services. More detailed information may be obtained at the school office or online at www.squaremeals.org.

1.25 School-Sponsored Trips / Field Trips

The District periodically takes students on field trips for educational purposes.

A parent must provide permission for a student to participate in a field trip.

The District may ask a parent to provide information about a student's medical provider and insurance coverage, and may also ask a parent to sign a waiver allowing for emergency medical treatment in the case of a student accident or illness during the field trip.

The District may (as allowed by law) require a fee for student participation in a field trip to cover expenses such as transportation, admission, and meals; however, students will not be denied participation because of financial need.

1.26 Student Backpacks, Bags and Purses

In consideration of the age level of the students at Burnham Wood, it is suggested that parents check student's backpacks, bags, and purchases. Often, children put objects in them that may be inappropriate. With us working together, we can achieve a safe environment for everyone. Upon reasonable suspicion, the school may search any backpack, bag or purse at the school or school related activities. See section on Searches.

1.27 Transportation

The District provides regular transportation to students,

As required by a student's Individualized Education Plan ("IEP") for a student with disabilities,

Transportation to students in school vehicles for educational field trips and participation in athletic and other extra-curricular events.

The District may provide regular transportation to students, transportation as eligible and funded through the transportation allotment, as part of the Foundation School Program for:

- Regular route services
- Special route services
- Career and technical education (CTE) route services
- Private route services

The District may provide regular transportation to students, transportation not eligible for funding under the Foundation School Program per School Board Policy.

Riding a school vehicle is a privilege. Drivers have the authority to maintain discipline and require seating charts. When riding a school vehicle, students are held to behavioral standards established in this Handbook and the Student Code of Conduct. Students must:

1. Follow the driver's directions at all times;
2. Enter and leave the vehicle in an orderly manner;
3. Keep feet, books, instrument cases, and other objects out of the aisle;

Only designated students are allowed to ride in the vehicle. Students may neither ride the vehicle to a different location nor have friends ride the vehicle to participate in after-school activities.

If a student with a disability is receiving school transportation as a result of an IEP, the student's admission, review, and dismissal committee will have the discretion in determining appropriate disciplinary consequences related to inappropriate behavior in a school vehicle.

1.28 Transcripts and Academic Achievement Records

The District maintains an academic achievement record (or transcript) for each student enrolled. Transcripts list personal student data, give complete scholastic grades, and report student activities, honors, and scores on standardized achievement tests. Requests for transcripts should be made to the campus registrar. Students are provided with one of free official transcripts. Each additional transcript is \$5. Payments should be made at the time of the request in either cash or check. Official transcripts may

be picked up from the campus registrar five business days after the request is submitted except at the end of the semester. Grade point averages and class rank are recalculated at the end of each semester and updated transcripts are not available until the end of the third business week after the end of the semester.

1.29 Displaying a Student's Artwork, Projects, Photos, and Other Original Work

Teachers may display student work in classrooms or elsewhere on campus as recognition of student achievement. However, the District will seek parental consent for use and/or reproduction before displaying student artwork, special projects, photographs taken by students, and other original works on the District website, on any campus or classroom website, in printed materials, by video, or by any other method of mass communication. the District will also seek consent for use and/or reproduction before displaying or publishing an original video or voice recording in this manner.

1.30 Distribution of Materials or Documents

School Materials

Publications prepared by and for the District may be posted or distributed with prior approval by the Principal or designee. Such items may include school posters, brochures, murals, etc.

Non-School Materials

Students must obtain express prior approval of the Superintendent or designee before distributing, posting, selling, or circulating written materials, handbills, photographs, pictures, petitions, films, tapes, posters, or other visual or auditory materials on campus.

Non-school literature shall not be distributed by students on the District property if:

- The materials are obscene, vulgar, or otherwise inappropriate for the age and maturity of the audience.
- The materials endorse actions endangering the health or safety of students.
- The materials promote illegal use of drugs, alcohol, or other controlled substances.
- The distribution of such materials would violate the intellectual property rights, privacy rights, or other rights of another person.
- The materials contain defamatory statements about public figures or others.
- The materials advocate imminent lawless or disruptive action and are likely to incite or produce such action.
- The materials are hate literature or similar publications that scurrilously attack ethnic, religious, or racial groups or contain content aimed at creating hostility and violence, and the materials would materially and substantially interfere with school activities or the rights of others.
- There is reasonable cause to believe that distribution of the non-school literature would result in material and substantial interference with school activities or the rights of others.

Any student who posts material without prior approval will be subject to disciplinary action in accordance with the Student Code of Conduct. Materials displayed without approval will be removed.

Written or printed materials, handbills, photographs, pictures, films, tapes, or other visual or auditory

materials over which the District does not exercise control shall not be sold, circulated, or distributed by persons or groups not associated with the District or a school support group on school premises unless the person or group obtains specific prior approval from the Superintendent or designee. To be considered, any non-school material must include the name of the sponsoring organization or individual. The requestor may appeal to the Superintendent or designee's decision in accordance with Board policy.

1.31 Electronic Devices and Technology Resources

Possession and Use of Personal Telecommunications Devices, Including Mobile Telephones, and Other Electronic Devices

The District permits students to possess personal cell phones for safety purposes; however, these devices **must remain turned off during the instructional day, including during all testing**, unless they are being used for approved instructional purposes.

A student must also have approval to possess other telecommunications devices at school, such as netbooks, laptops, tablets, or other portable computers.

Students are not permitted to possess or use personal electronic devices (such as MP3 players, video or audio records, DVD players, cameras, games, or similar electronic devices) at school unless prior permission has been obtained. Without such permission, school staff will collect the items and turn them in to the Principal's office. The Principal will determine whether to return the item(s) to students at the end of the day or contact a parent to pick up the item(s).

The use of cell phones or any other device capable of capturing images is strictly prohibited in locker rooms, restroom areas, or other sensitive areas while at school or at a school-related or school-sponsored event.

Should a student uses a telecommunications device (such as a cell phone) without authorization during the school day, the device will be confiscated. A confiscated device may be picked up from the Principal's office. A fee of \$15 may be charged. Confiscated telecommunications devices that are not retrieved by the student or a parent will be disposed of after the notice required by law. If a student and parent have executed a waiver permitting the student to possess an electronic communication device at school, school officials may power on and search the device if there is a reasonable cause to believe that the device has been used in the transmission or reception of communications prohibited by law, policy, or regulation.

Any disciplinary action will be in accordance with the Student Code of Conduct.

The District will not be responsible for damage to or loss or theft of confiscated personal devices.

Instructional Use of Personal Telecommunications and Other Electronic Devices

In some cases, students may find it beneficial or might be encouraged to use personal telecommunications or other personal electronic devices for instructional purposes while on campus. Students must obtain prior approval before using personal telecommunications or other personal electronic devices for instructional use. When students are not using the devices for approved instructional purposes, all devices

must be turned off during the instructional day. Violations may result in withdrawal of privileges and other disciplinary action. The District is not responsible for any damaged, lost, or stolen personal devices.

Acceptable Use of Technology Resources

School-owned technology resources for instructional purposes may be issued to individual students. Use of these technological resources, which include the District's network systems and use of school equipment, is restricted to approved purposes only. Students and parents will be asked to sign an Acceptable Use Agreement Acknowledgment Form regarding use of these school resources. Violations of the user agreement may result in withdrawal of privileges and other disciplinary action.

Unacceptable and Inappropriate Use of Technology Resources

Students are prohibited from possessing, sending, forwarding, posting, accessing, or displaying electronic messages that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, or illegal. This prohibition also applies to conduct off school property, whether the equipment used to send such messages is district-owned or personally owned, if it results in a substantial disruption to the educational environment.

Any person taking, disseminating, transferring, possessing, or sharing obscene, sexually oriented, lewd, or otherwise illegal images or other content, commonly referred to as "sexting," will be disciplined according to the Student Code of Conduct, may be required to complete an educational program related to the dangers of this type of behavior, and, in certain circumstances, may be reported to law enforcement. Because engaging in this type of behavior can lead to bullying or harassment, as well as possibly impede future endeavors of a student, we encourage you to review with your child the "Before You Text: Sexting & Bullying Prevention, Education & Intervention Course," a state-developed program that addresses the consequences of engaging in inappropriate behavior using technology.

In addition, any student who engages in conduct that results in a breach of the District's computer security will be disciplined in accordance with the Student Code of Conduct, and, in some cases, the consequence may rise to the level of expulsion.

1.32 Pledges of Allegiance and Moment of Silence

Each school day, students will recite the Pledge of Allegiance to the United States flag and the Pledge of Allegiance to the Texas flag. Parents may submit a written request to the Superintendent or designee to excuse their student from reciting a pledge.

State law requires that one minute of silence will follow recitation of the pledges. Each student may choose to reflect, pray, meditate, or engage in any other silent activity during that minute so long as the silent activity does not interfere with or distract others. In addition, state law requires that the District provide for the observance of one minute of silence at the beginning of the first-class period when September 11 falls on a regular school day in remembrance of those who lost their lives on September 11, 2001.

1.33 Recitation of the Declaration of Independence

For all public schools in Texas, the week of September 17 is designated as "Celebrate Freedom Week."

During that time, social studies and history classes will provide instruction concerning the intent, meaning, and importance of the Declaration of Independence and the U.S. Constitution, and students in grades 3 and above will recite a portion of the text of the Declaration of Independence. A student will be exempted from this requirement if a parent provides a written statement requesting that the student be excused, the District determines that the student has a conscientious objection to the recitation, or the parent is a representative of a foreign government to whom the United States extends diplomatic immunity.

1.34 Respect for Individual Differences

Any ethnic, racial, religious remarks, gestures or innuendo that disparages individuals will not be tolerated. Report any infractions immediately to your teacher, the office, Principal, or Superintendent.

Although world religions and cultures are taught as part of the curriculum, the school does not celebrate any religious holidays.

1.35 Prayer and Meditation

Students have a right to individually, silently, and voluntarily pray or meditate in school in a manner that does not disrupt instructional or other school activities. The District will not require, encourage, or coerce a student to engage in or refrain from such prayer or meditation during any school activity.

2.2 Alcohol-Free School Notice

To provide a safe and alcohol-free environment for students and employees, all alcoholic beverages are prohibited on the District property at all times, and at all school-sanctioned activities occurring on or off school property. Student violators are subject to possible prosecution, as allowed by law, as well as the disciplinary terms of the Student Code of Conduct.

2.3 Tobacco-Free School Notice

Students are prohibited from possessing or using any type of tobacco product, electronic cigarette (e-cigarette), or any form of smokeless tobacco or electronic vapor product while in school buildings, vehicles, or on or near school property, or at school-related or school-sanctioned events off school property. Student violators are subject to possible prosecution, as allowed by law, as well as the disciplinary terms of the Student Code of Conduct.

2.4 Drug-Free School Notice

The District prohibits the use, sale, possession, or distribution of illicit drugs by students on school premises or any school activity, regardless of its location. The District also prohibits the use, sale, possession, or distribution of look-alike substances and/or synthetic substances designed to imitate the look and/or effects of illicit drugs. Student violators are subject to possible prosecution, as allowed by law, as well as the disciplinary terms of the Student Code of Conduct.

2.5 Asbestos Management Plan

The District works diligently to maintain compliance with federal and state law governing asbestos in school buildings, and has developed an Asbestos Management Plan. If you have any questions or would like to examine the school's plan in more detail, please contact Superintendent or designee at 785

Southwestern Dr., El Paso, TX 79912.

2.6 Bacterial Meningitis Information

State law requires the District to provide the following information about bacterial meningitis:

What is bacterial meningitis?

Meningitis is an inflammation of the covering of the brain and spinal cord. It can be caused by viruses, parasites, fungi, and bacteria. Viral meningitis is most common and the least serious. Meningitis caused by bacteria is the most likely form of the disease to cause serious, long-term complications. It is an uncommon disease but requires urgent treatment with antibiotics to prevent permanent damage or death.

Bacterial meningitis can be caused by multiple organisms. Two common types are *Streptococcus pneumoniae*, with over 80 serogroups that can cause illness, and *Neisseria meningitidis*, with 5 serogroups that most commonly cause meningitis.

What are the symptoms?

Someone with meningitis will become very ill. The illness may develop over one or two days, but it can also rapidly progress in a matter of hours. Not everyone with meningitis will have the same symptoms.

Children (over 1 year old) and adults with bacterial meningitis may have a severe headache, high temperature, vomiting, sensitivity to bright lights, neck stiffness, and drowsiness or confusion. In both children and adults, there may be a rash of tiny, red-purple spots. These can occur anywhere on the body.

The diagnosis of bacterial meningitis is based on a combination of symptoms and laboratory results.

How serious is Bacterial Meningitis?

If it is diagnosed early and treated promptly, the majority of people make a complete recovery. If left untreated or treatment is delayed, bacterial meningitis can be fatal, or a person may be left with a permanent disability.

How is bacterial meningitis spread?

Fortunately, none of the bacteria that cause meningitis are as contagious as diseases like the common cold or the flu, and they are not spread by simply breathing the air where a person with meningitis has been. The germs live naturally in the back of our noses and throats, but they do not live for long outside the body. They are spread when people exchange saliva (such as by kissing; sharing drinking containers, utensils, or cigarettes) or when people cough or sneeze without covering their mouth and nose.

The bacteria do not cause meningitis in most people. Instead, most people become carriers of the bacteria for days, weeks or even months. The bacteria rarely overcome the body's immune system and cause meningitis or another serious illness.

How can bacterial meningitis be prevented?

Vaccination: Bacterial meningitis caused by *Streptococcus pneumoniae* and *Neisseria meningitidis* may be prevented through vaccination. The vaccine which protects against *Streptococcus pneumoniae* is called pneumococcal conjugate vaccine or PCV. This vaccine is recommended by the Advisory Council on Immunization Practices (ACIP) for children in the first year of life. *Neisseria meningitidis* is prevented through two types of vaccines. The first is a meningococcal conjugate vaccine which protects against 4 serogroups A, C, W, and Y and is referred to as MCV4. The second is a vaccine against *Neisseria meningitidis* serogroup B and is referred to as MenB.

The ACIP recommends MCV4 for children at age 11-12 years, with a booster dose at 16-18 years. In Texas, one dose of MCV4 given at or after age 11 years is required for children in 7th-12th grades. One dose of MCV4 received in the previous five years is required in Texas for those under the age of 22 years and enrolling in college. Teens and young adults (16-23 years of age) may be vaccinated with MenB. This vaccine is not required for school or college enrollment in Texas.

Vaccines to protect against bacterial meningitis are safe and effective. Common side effects include redness and pain at the injection site lasting up to two days. Immunity develops about 1-2 weeks after the vaccines are given and lasts for 5 years to life depending on vaccine.

Healthy Habits: Do not share food, drinks, utensils, toothbrushes, or cigarettes. Wash your hands. Limit the number of persons you kiss. Cover your mouth and nose when you sneeze or cough. Maintaining healthy habits, like getting plenty of rest and not having close contact with people who are sick, also helps.

Who is at risk for Bacterial Meningitis?

Certain groups are at increased risk for bacterial meningitis caused by *Neisseria meningitidis*. These risk factors include HIV infection, travel to places where meningococcal disease is common (such as certain countries in Africa and in Saudi Arabia), and college students living in a dormitory. Other risk factors include having a previous viral infection, living in a crowded household, or having an underlying chronic illness.

Children ages 11-15 years have the second highest rate of death from bacterial meningitis caused by *Neisseria meningitidis*. And children ages 16-23 years also have the second highest rates of disease caused by *Neisseria meningitidis*.

What should you do if you think you or a friend might have bacterial meningitis?

You should seek prompt medical attention.

For more information.

Your school nurse, family doctor, and the staff at your local or regional health department office are excellent sources for information on all infectious diseases. You may call your family doctor or local health department office to ask about meningococcal vaccine. Additional information may also be found at the web sites for the Centers for Disease Control and Prevention (CDC):

- <https://www.cdc.gov/meningitis/index.html>

and the Texas Department of State Health Services:

- <https://www.dshs.texas.gov/immunize/PreteenVaccines.aspx> or
- <https://dshs.texas.gov/IDCU/disease/meningitis/Meningitis.aspx>.

2.7 **Communicable Diseases**

To protect other students from contagious illnesses, students infected with certain diseases are not allowed to come to school while contagious. Parents of students with a communicable or contagious disease should notify the Principal or designee so that other students who might have been exposed to the disease can be alerted. School authorities will report those students who are suspected of having a reportable condition. A list of reportable conditions can be found on the Texas Department of State Health Services website at: <http://www.dshs.state.tx.us/idcu/investigation/conditions/>.

Any student excluded from school attendance for reason of communicable disease may be readmitted by one or more of the following methods, as determined by the local health authority:

- Certificate of the attending physician, advanced practice nurse, or physician assistant attesting that the child does not currently have signs or symptoms of a communicable disease or to the disease's non-infectiousness in a school setting;
- Submitting a permit for readmission issued by a local health authority; or
- Meeting readmission criteria as established by the commissioner of health.

Please contact the school nurse if you have questions or if you are concerned about whether a child should stay home.

2.8 **Immunization Requirements**

The State of Texas requires that every child in the state be immunized against preventable diseases caused by infectious agents, in accordance with an established immunization schedule. To determine the specific number of doses that are required for your student, please read the "Immunization Requirements for Schools" available on the Texas Department of State Health Services website at <https://www.dshs.texas.gov/immunize/school/school-requirements.aspx>.

Proof of immunization may be personal records from a licensed physician or public health clinic with a signature or rubber-stamp validation.

Provisional Enrollment

A student may be provisionally admitted to or enrolled in the District if the student has an immunization record that indicates the student has received at least one dose of each specified age-appropriate vaccine required by law. To remain enrolled, the student must continue to receive the necessary immunizations as rapidly as medically feasible, and complete the required subsequent doses in each vaccine series on schedule and as rapidly as is medically feasible. The student and/or parent must also provide acceptable evidence of vaccination to the District.

A nurse or school administrator shall review the immunization status of a provisionally enrolled student every 30 days to ensure continued compliance in completing the required doses of vaccination. If, at the end of the 30-day period, a student has not received a subsequent dose of vaccine, the student is not in compliance and the District shall exclude him or her from school attendance until the required dose is administered.

Homeless Students: A student who is homeless, as defined by federal law, shall be admitted temporarily for 30 days if acceptable evidence of vaccination is not available. the District shall promptly refer the student to appropriate public health programs to obtain the required vaccinations.

Children in Foster Care: A student who is a “child in foster care” as defined by 45 C.F.R. § 1355.20(a) shall be admitted temporarily for 30 days if acceptable evidence of vaccination is not available. The District shall promptly refer the student to an appropriate health provider to obtain the required vaccinations.

Transfer Students: A student can be enrolled provisionally for no more than 30 days if the student transfers from one Texas school to another and is awaiting the transfer of the immunization record.

Military Dependents: A military dependent can be enrolled provisionally for no more than 30 days if the student transfers from one school to another and is awaiting the transfer of the immunization record. The collection and exchange of information pertaining to immunizations with respect to military dependents shall be subject to confidentiality provisions prescribed by federal law.

Exclusions from Immunization Requirements

Exclusions from immunization requirements are allowable on an individual basis for medical reasons, reasons of conscience (including a religious belief), and active duty with the armed forces of the United States.

To claim exclusion for medical reasons, the student must present a statement signed by the student’s physician (M.D. or D.O.), duly registered and licensed to practice medicine in the United States who has examined the student, in which it is stated that, in the physician’s opinion, the vaccine required is medically contraindicated or poses a significant risk to the health and well-being of the student or any member of the student’s household. Unless it is written in the statement that a lifelong condition exists, the exemption statement is valid for only one year from the date signed by the physician.

To claim an exclusion for reasons of conscience, including a religious belief, a signed Texas Department of State Health Services affidavit must be presented by the student’s parent, stating that the student’s parent declines vaccinations for reasons of conscience, including because of the person’s religious beliefs. The affidavit will be valid for a period of two years. The form affidavit may be obtained by writing the Texas Department of State Health Services Immunization Branch (MC 1946), P.O. Box 149347, Austin, Texas 78714-9347, or online at [Affidavit Request for Exemption from Immunization](#). The form must be submitted to the Superintendent or designee within 90 days from the date it is notarized. If the parent is seeking an exemption for more than one student in the family, a separate form must be provided for each student. Students, who have not received the required immunizations for reasons of conscience, including religious beliefs, may be excluded from school in times of emergency or epidemic declared by the commissioner of public health.

To claim exclusion for armed forces, the student must prove that he or she is serving on active duty with the armed forces of the United States.

If a parent seeks an exemption for more than one student, a separate form must be provided for each student.

Immunization Records Reporting

The school's record of a student's immunization history, while private in most instances, may be inspected by the Texas Education Agency ("TEA"), local health departments, and Texas Department of State Health Services and transferred to other schools associated with the transfer of the student to those schools.

2.9 Emergency Medical Treatment

If a student has a medical emergency at school or a school-related activity and the parent cannot be reached, the District staff will seek emergency medical treatment unless the parent has previously provided a written statement denying this authorization. Therefore, parents are asked each year to complete an emergency care consent form. Parents should keep emergency care information up-to-date (name of doctor, emergency phone numbers, allergies, etc.). Please contact the campus registrar to update any information.

2.10 Student Illness

When your child is ill, please contact the District to let us know he or she will not be attending that day.

If a student becomes ill during the school day, he or she must receive permission from the teacher before reporting to the school nurse. If the nurse determines that the child should go home, the nurse will contact the parent.

Head Lice

Head lice (which are not an illness or disease) are common among children, and may spread easily through contact during play or when students share items such as headphones, brushes, combs, hats, or other items that come in contact with hair. If the District observes that a student may have head lice, an appropriate administrator will contact the student's parent to determine whether the student needs to be sent home and to discuss a plan for treatment with an FDA-approved medicated shampoo or cream rinse. When an elementary student has head lice, the District will also provide written notice to the student's parent and the parents of each child assigned to the same classroom as required by state law.

2.11 Administration of Medication

Medication should be administered at home whenever possible. If necessary, medication can be administered at school by the school nurse under the following circumstances:

1. Nonprescription medication brought to school must be submitted to the District by a parent along

- with a written request. The medication must also be in the original and properly labeled container.
2. Prescription medications administered during school hours must be prescribed by a physician or advanced nurse practitioner (“ANP”) and filled by a pharmacist licensed in the State of Texas. **In accordance with the Texas Board of Nursing Practice Act, the District will not administer medications prescribed or fulfilled in Mexico.**
 3. Prescription medications must be submitted in a labeled container showing the student’s name, name of the medication, reason the medication is being given, proper dosage amounts, the time the medication must be taken, and the method used to administer the medication. Medications sent in plastic baggies or unlabeled containers will NOT be administered.
 4. If the substance is herbal or a dietary supplement, it must be provided by the parent and will be administered only if required by the student’s IEP or Section 504 plan for a student with disabilities.
 5. Only the amount of medication needed should be delivered to the District, *i.e.*, enough medication to last one day, one week, etc. In cases of prolonged need, send in the amount for a clearly specified period. Extra medication will not be sent home with the student.
 6. In certain emergency situations, the District may administer a nonprescription medication to a student, but only in accordance with the guidelines developed by the school’s medical advisor and when the parent has previously provided written consent for emergency treatment.

Changes to daily medications require written instruction from the physician or ANP and written permission from the parent. Parents are responsible for advising the District that a medication has been discontinued.

Asthma and Anaphylaxis Medication

Asthma and anaphylaxis are life-threatening conditions, and students with those conditions are entitled to possess and self-administer prescription medication while on District property or at school-related events.

Student possession and self-administration of asthma or anaphylaxis medication at school requires the student to demonstrate his or her ability to self-administer the medication to the student’s physician or other licensed health care provider and the school nurse, if available. Requirements also include written authorization from the student’s parent and physician or other licensed health care provider on file in the school office indicating the student is capable of independently administering his or her own asthma or emergency anaphylaxis medication. Medication in a student’s possession must be in an original container with a prescription label. Please note that most pharmacies will place a label on the inhaler device upon request.

2.12 Seizure Management Plan

The parent of a student with a seizure disorder may seek care for the student’s seizures while the student is at school or participating in a school activity by submitting to the District a copy of a seizure management and treatment plan developed by the parent and the physician responsible for the student’s seizure treatment. The plan must be submitted to and reviewed by the District :

1. Before or at the beginning of the school year;
2. On enrollment of the student if the student enrolls after the start of the school year; or
3. As soon as practicable following a diagnosis of a seizure disorder for the student.

A seizure management and treatment plan must:

1. Identify the health care services the student may receive at school or while participating in a school activity;
2. Evaluate the student's ability to manage and level of understanding of the student's seizures; and
3. Be signed by the student's parent and the physician for the student's seizure treatment.

2.13 Steroid Notice

State law prohibits students from possessing, dispensing, delivering, or administering an anabolic steroid. Anabolic steroids are for medical use only, and only a physician can prescribe use.

The District does not permit steroid use. A notice shall be posted in a conspicuous location in the school gym or in each other place in a building where physical education classes are conducted.

2.14 Dyslexia and Related Disorders

From time to time, students may be tested and, where appropriate, supported for dyslexia and related disorders in accordance with programs, rules and standards approved by the State of Texas. The program approved by the state must include screening at the end of the school year of each student in kindergarten and each student in the first grade. Parents will be notified should the District determine a need to identify or assess their student for dyslexia and related disorders.

2.15 Health Screenings

Athletics Participation

For certain extracurricular activities, a student must submit to certification from an authorized health-care provider. The certification must state that the student has been examined and is physically able to participate in the relevant program, including:

- An athletic program;
- Any extracurricular programs identified by the Superintendent.

Students should be aware of the rare possibility of sudden cardiac arrest, which in athletes is usually caused by a previously unsuspected heart disease or disorder.

Fitness Testing

According to requirements under state law, the District will annually assess the physical fitness of students. the District is not required to assess a student for whom, as a result of disability or other condition identified by rule or law, the assessment exam is inappropriate.

Spinal Screening

School-based spinal screening helps identify adolescents with abnormal spinal curvature and refer them for appropriate follow-up by their physician. Screening can detect scoliosis at an early stage when the curve is mild and may go unnoticed. Early detection is key to controlling spinal deformities.

All students who meet Texas Department of State Health Services criteria will be screened for abnormal spinal curvature before the end of the school year. Spinal screening is non-invasive and conducted following the most recent, nationally accepted, and peer-reviewed standards for spinal screening.

A parent who declines participation in the spinal screening provided by the District must submit to the Principal or designee documentation of a professional examination, which includes the results of a forward-bend test. This documentation must be submitted to the District during the year the student is scheduled for screening or, if the professional exam is obtained during the following summer, at the beginning of the following school year.

Exemption: A student is exempt from screening if the screening conflicts with the tenets and practices of a recognized church or religious denomination of which the individual is an adherent or member. To qualify for the exemption, the student's parent, managing conservator, or guardian must submit to the Superintendent or designee on or before the day of the screening procedure an affidavit stating the objections to screening.

Vision and Hearing Screenings

All children enrolled in Texas schools must be screened for possible vision and hearing problems in accordance with regulations issued by the Texas Department of State Health Services. Students in certain grade levels identified by state regulations shall be screened for vision and hearing problems annually. A student may be screened using photo-screening to detect vision disorders.

Screening records for individual students may be inspected by the Texas Department of State Health Services or a local health department and may be transferred to another school without parental consent.

Exemption: A student is exempt from screening requirements if screening conflicts with the tenets and practices of a recognized church or religious denomination of which the individual is an adherent or a member. To qualify for the exemption, the individual or, if the individual is a minor, the minor's parent, managing conservator, or guardian, must submit to the Superintendent or designee on or before the day of admission an affidavit stating the objections to screening.

Acanthosis Screening for Diabetes

Children in certain grades identified by the state must be screened for warning signs of diabetes.

Exemption: A student is exempt from screening if the screening conflicts with the tenets and practices of a recognized church or religious denomination of which the individual is an adherent or member. To qualify for the exemption, the student's parent must submit to the Principal or designee on or before the day of the screening procedure an affidavit stating the objections to screening.

2.16 Preparedness Training

The District will annually offer instruction in CPR at least once to students in grades 7–12. The instruction may be provided as part of any course and is not required to result in CPR certification.

The District will annually offer students in grades 7–12 instruction on the use of bleeding control stations to respond to traumatic injury. For more information, see [Homeland Security’s Stop the Bleed](#) and [Stop the Bleed Texas](#).

2.17 Freedom from Discrimination, Harassment, and Retaliation

Statement of Nondiscrimination

The District prohibits discrimination, including harassment, against any student on the basis of race, color, religion, sex or gender, national origin, disability, age, or any other basis prohibited by law. Retaliation against anyone involved in the complaint and/or grievance process is a violation of school policy.

Discrimination and Harassment (Prohibited Conduct)

For purposes of the District policy, the term “Prohibited Conduct” means discrimination or harassment against a student involving conduct directed at a student on the basis of race, color, religion, gender or sex, national origin, disability, age, or any other basis prohibited by law and that adversely affects the student, and/or that is so severe, persistent, or pervasive that the conduct:

- Affects a student’s ability to participate in or benefit from an educational program or activity, or creates an intimidating, threatening, hostile, or offensive educational environment;
- Has the purpose or effect of substantially or unreasonably interfering with the student’s academic performance; or
- Otherwise adversely affects the student’s educational opportunities.

Examples of Prohibited Conduct may include offensive or derogatory language directed at another person’s religious beliefs or practices, accent, skin color, or need for accommodation; threatening or intimidating conduct; offensive jokes; name calling, slurs, or rumors; physical aggression or assault; display of graffiti or printed material promoting racial, ethnic, or other negative stereotypes; or other kinds of aggressive conduct such as theft or damage to property.

As noted above, the District also considers gender-based harassment to be Prohibited Conduct. Gender-based harassment includes harassment based on a student’s gender, expression by the student of stereotypical characteristics associated with the student’s gender, or the student’s failure to conform to stereotypical behavior related to gender. Examples of gender-based harassment directed against a student, regardless of the student’s or the harasser’s actual or perceived sexual orientation or gender identity, may include, but not be limited to, offensive jokes, name-calling, slurs, or rumors; physical aggression or assault; threatening or intimidating conduct; or other kinds of aggressive conduct such as theft or damage to property.

Retaliation

Retaliation against a person who makes a good faith report of Prohibited Conduct (meaning discrimination or harassment) is prohibited. Retaliation against a person who is participating in an investigation of reported Prohibited Conduct is also prohibited. A person who makes a false claim or offers false statements or refuses to cooperate with the District investigation, however, may be subject to appropriate discipline.

Examples of retaliation may include threats, rumor spreading, ostracism, assault, destruction of property, unjustified punishments, or unwarranted grade reductions. Unlawful retaliation does not include petty slights or annoyances.

Reporting Prohibited Conduct

A student who believes that he or she has experienced Prohibited Conduct or retaliation or believes that another student has experienced Prohibited Conduct or retaliation should immediately report the alleged conduct to a teacher, counselor, the Principal or designee, or other school employee. The report may be made by the student's parent. Alternatively, a report may be made directly to the appropriate Compliance Coordinator identified in this Handbook.

Upon receiving a report of potential Prohibited Conduct, the District will determine whether the allegations, if proven, would constitute prohibited discrimination, harassment, or retaliation. If not, the District will determine if the allegations, if proven, would constitute bullying. If the alleged Prohibited Conduct, if proven, would constitute discrimination or harassment and would also be considered bullying, an investigation of bullying will also be conducted.

Investigation

To the extent possible, the District will respect the privacy of the student; however, limited disclosures may be necessary to conduct a thorough investigation and to comply with law. Allegations of Prohibited Conduct will be promptly investigated.

The investigation may be conducted by the Compliance Coordinator or designee, or by a third party designated by the District, such as an attorney. When appropriate, the Principal or the student's teacher(s) will be involved in or informed of the investigation.

If a law enforcement or other regulatory agency notifies the District that it is investigating the matter and requests that the school delay its investigation, the District will resume the investigation at the conclusion of the agency's investigation.

During the course of an investigation and when appropriate, the District will take interim action to address the alleged Prohibited Conduct.

If the District's investigation indicates that Prohibited Conduct occurred, appropriate disciplinary action and, in some cases, corrective action, will be taken to address the conduct. The District may take disciplinary and corrective action even if the conduct that is the subject of the complaint was not unlawful.

All involved parties will be notified of the outcome of the investigation within the parameters and limits allowed under the Family Educational Rights and Privacy Act ("FERPA").

Appeal

A student or parent who is dissatisfied with the outcome of the investigation of reported Prohibited Conduct may appeal through the District student and parent complaint and/or grievance procedure, beginning at Level II.

2.18 Freedom from Sexual Harassment

The District prohibits discrimination on the basis of sex, including sexual harassment, by an employee, volunteer, or another student.

Sexual harassment means conduct on the basis of sex that satisfies one or more of the following:

1. A school employee conditioning the provision of aid, benefit, or service on an individual's participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's educational programs or activities;
3. Sexual assault, dating violence, domestic violence, or stalking (as those offenses are defined in the Clery Act, 20 U.S.C. § 1092(f), and the Violence Against Women Act, 34 U.S.C. § 12291(a)).

Examples of sexual harassment may include, but are not limited to, touching private body parts, or coercing physical contact that is sexual in nature; sexual advances; jokes or conversations of a sexual nature; sexually-motivated physical, verbal, or nonverbal conduct; or other sexually motivated conduct, communications, or contact.

Romantic or inappropriate social relationships between students and school employees are prohibited. Any sexual relationship between a student and a school employee is always prohibited, even if consensual.

General Definitions

A "complainant" means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

A "respondent" means an individual who is reported to be the perpetrator of conduct that could constitute sexual harassment.

A "formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the District investigate the allegation of sexual harassment.

"Supportive measures" means non-disciplinary, non-punitive individualized services offered appropriate and without fee or charge to the complainant or the respondent before or after the filing of a formal

complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the District's educational program or activity without unreasonably burdening either party, including measures designed to protect the safety of all parties or the District's educational environment, or deter sexual harassment. Examples of supportive measures include, but are not limited to, counseling, extensions of deadlines or other course-related adjustments, modifications of class schedules, mutual restrictions on contact between the parties, and other similar measures.

Reporting Sexual Harassment

Any person may report sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, or by email, using the contact information listed for the Title IX Coordinator on page __ of this Handbook, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Such a report may be made at any time, including during non-business hours, by using the telephone number or email address, or by mail to the office address, listed for the Title IX Coordinator.

The District's response to a report of sexual harassment must treat complainants and respondents equitably by offering supportive measures and by following a grievance process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent.

After a report of sexual harassment has been made, the Title IX Coordinator must promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.

Notice of Allegations

Upon receipt of a formal complaint, the District will provide the following written notice to the parties who are known:

- Notice of the District's grievance process, including any informal resolution process.
- Notice of the allegations of sexual harassment, including, to the extent known, the identity of the parties, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident.
- Notice that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made known at the conclusion of the grievance process.
- Notice that the parties may have an advisor of their choice, who may be, but is not required to be, an attorney.
- Notice that the parties may inspect, and review evidence related to the complaint.
- Notice that the District prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

If, during an investigation, the District decides to investigate allegations about the complaint or respondent that are not included in the initial notice of the complaint, the District must provide notice of

the additional allegations to the parties whose identities are known.

Grievance Process

At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the District.

The following guidelines apply when the District receives a formal complaint of sexual harassment. This process is designed to incorporate due process, principles, treat all parties fairly, and to assist the District in reaching reliable responsibility determinations.

- The District will require an objective evaluation of all relevant evidence – including both inculpatory and exculpatory evidence – and credibility determinations may not be based on a person’s status as a complainant, respondent, or witness.
- Any individual designated by the District as a Title IX Coordinator, investigator, decision-maker, or to facilitate an informal resolution process must not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent responsible. the District will ensure that Title IX Coordinators, investigators, decision-makers, and anyone who facilitates an informal resolution process receive appropriate training related to the requirements of Title IX and the District’s sexual harassment policy.
- The District recognizes a presumption that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the complaint process.
- The District shall attempt to complete an investigation of reported sexual harassment within 60 calendar days of receiving a complaint. However, the investigation process may be delayed or extended for a limited time for good cause with written notice to the complainant and the respondent of the delay or extension. Good cause may include considerations such as absence of a party, a party’s advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities.
- Students found to have engaged in sexual harassment are subject to disciplinary action as outlined in the Student Code of Conduct.
- The District shall employ the clear and convincing evidence standard to determine responsibility when reviewing formal complaints.
- The District may not require, allow, rely upon, or otherwise use questions of evidence that constitute, or seek disclosure, of information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

Consolidation of Formal Complaints

The District may consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances.

Dismissal of Formal Complaints

The District must investigate the allegations in a formal complaint.

The District must dismiss a formal complaint if the conduct alleged in the formal complaint:

- Would not constitute sexual harassment, even if proved;
- Did not occur in the District's education program or activity; or
- Did not occur against a person in the United States.

The District may dismiss a formal complaint or any allegations therein if, at any time during the investigation:

- A complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- The respondent is no longer enrolled or employed by the District; or
- Specific circumstances prevent the District from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon a dismissal, the District must promptly send simultaneous written notice to the parties of the dismissal and the reason(s) for the dismissal. Dismissal of a formal complaint does not preclude the District from taking appropriate action under the Student Code of Conduct or any other school policy that may apply to the alleged conduct.

Investigating Formal Complaints

The following guidelines apply during the investigation of a formal complaint and throughout the grievance process.

- The District will ensure the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the District and not on the parties.
- The District cannot access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the District receives that party's voluntary, written consent to do so.
- The District will provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence.
- The District will not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence.
- The District will provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisory of their choice, and not limit the choice or presence of an advisor for either the complainant or respondent in any meeting or grievance proceeding. the District may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties.
- The District will provide to a party whose participation is invited or expected written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings

with sufficient time for the party to prepare to participate.

- The District will provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence upon which the recipient does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to conclusion of the investigation.
- Prior to completing an investigative report, the District will send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties must have at least 10 days to submit a written response, which the investigator will consider prior to completing the investigative report.
- The District will create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to a determination regarding responsibility, send to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for review and written response.
- After sending the investigative report to the parties and before reaching a determination of responsibility, the decision-maker(s) must afford each party the opportunity to submit written relevant questions that a party wants asked of any witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The decision-maker(s) must explain to the party proposing the questions any decision to exclude a question as not relevant.

Determination Regarding Responsibility

The decision-maker(s) making a determination regarding responsibility cannot be the same person(s) as the Title IX Coordinator or the investigator(s). The decision-maker(s) must review the investigation report and make a written determination, based on the clear and convincing evidence standard, regarding responsibility. The written determination must include:

- Identification of the allegations potentially constituting sexual harassment;
- A description of the procedural steps taken from receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, or methods used to gather other evidence;
- Findings of fact supporting the determination;
- Conclusions regarding application of the District's Code of Conduct to the facts;
- A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions imposed on the respondent, and whether remedies designed to restore or preserve equal access to the District's education program or activities will be provided to the complainant; and
- the District's procedures and permissible bases for the complainant and respondent to appeal.

The District must provide the written determination to the parties simultaneously. The determination becomes final either on the date the District provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

The Title IX Coordinator is responsible for effective implementation of any remedies.

Appeals

The District will offer both parties an appeal from a determination regarding responsibility, and from the District's dismissal of a formal complaint or any allegations therein, on the following bases:

- Procedural irregularity that affected the outcome of the matter;
- New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
- The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

As to appeals, the District will ensure that the decision-maker(s) for the appeal is not the same person as the decision-maker(s) that reached the determination regarding responsibility or dismissal, or the investigator(s), or the Title IX Coordinator. The District will provide both parties a reasonable equal opportunity to submit a written statement in support of, or challenging, the outcome.

The decision-maker(s) for the appeal will issue a written decision, based on the clear and convincing evidence standard, describing the result of the appeal and the rationale for the result, and provide the written decision simultaneously to both parties.

A party who is dissatisfied with the appeal decision may file an appeal to the Board of Directors through the process outlined in the District's grievance procedures.

Emergency Removals

The District is able to remove a respondent from the District's education program on an emergency basis, provided that the District undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal. the District's ability to do so may not be construed to modify any rights under the Individuals with Disabilities Education Act, Section 504, or the Americans with Disabilities Act.

Informal Resolution

At any time prior to reaching a determination regarding responsibility, the District may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and adjudication.

However, the District may not require as a condition of enrollment or continuing enrollment, or employment or continued employment, or enjoyment of any other right, waiver of the right to an investigation and adjudication of formal complaints. Additionally, the District may not require the parties to participate in an informal process and may not offer an informal resolution process unless a formal complaint is filed.

Prior to facilitating an informal resolution process, the District will:

- Provide to the parties a written notice disclosing the allegations and the requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations. The notice must also inform that, at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, as well as of any consequence resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.
- Obtain the parties' voluntary, written consent to the informal resolution process.

The District will not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

Retaliation Prohibited

Neither the District nor any other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation or proceeding under this policy.

Examples of retaliation may include, but are not limited to, intimidation, threats, coercion, or discrimination.

Complaints alleging retaliation may be filed according to the grievance procedure described above.

Confidentiality

the District will keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by FERPA or as required by law, or for purposes related to the conduct of any investigation, hearing, or judicial proceeding arising under the Title IX regulations.

Non-Sexual Harassment Sex Discrimination

The formal complaint investigation and resolution process outlined above in "Freedom from Sexual Harassment" applies only to formal complaints alleging sexual harassment as defined by Title IX, but not to complaints alleging sex discrimination that do not constitute sexual harassment. Complaints of non-sexual harassment sex discrimination may be filed with the Title IX Coordinator and will be handled under

the process described under “Freedom from Discrimination, Harassment, and Retaliation” as outlined above.

2.19 Freedom from Bullying

The District prohibits bullying as defined below, as well as retaliation against anyone who reports or is involved in an investigation of potential bullying.

Bullying is defined in state law as a single significant act or a pattern of acts by one or more students directed at another student that exploits an imbalance of power and involves engaging in written or verbal expression, expression through electronic means, or physical conduct that:

- Has the effect or will have the effect of physically harming a student, damaging a student’s property, or placing a student in reasonable fear of harm to the student’s person or of damage to the student’s property;
- Is sufficiently severe, persistent, or pervasive enough that the action or threat creates an intimidating, threatening, or abusive educational environment for a student; or
- Materially and substantially disrupts the educational process or the orderly operation of a classroom or the School; or
- Infringes on the rights of the victim at school.

Bullying also includes cyberbullying, which is defined by state law as bullying that is done through the use of any electronic communication device, including through the use of a cellular or other type of telephone, a computer, a camera, electronic mail, instant messaging, text messaging, a social media application, an Internet website, or any other Internet-based communication tool.

The District will also take steps to prevent and mediate bullying incidents between students that:

- Interfere with a student’s educational opportunities; or
- Substantially disrupt the orderly operations of a classroom, school, or school-sponsored or school-related activity.

The school’s anti-bullying policy applies to:

- Bullying that occurs on or is delivered to school property or to the site of a school-sponsored or school-related activity on or off school property;
- Bullying that occurs on a publicly or privately owned school bus or vehicle being used for transportation of students to or from school or a school-sponsored or school-related activity; and
- Cyberbullying that occurs off school property or outside of a school-sponsored or school-related activity if the cyberbullying:
 - Interferes with a student’s educational opportunities; or
 - Substantially disrupts the orderly operation of a classroom, school, or school-sponsored or school-related activity.

Reporting Procedures

If a student believes that he or she has experienced bullying or has witnessed bullying of another student, it is important for the student or parent to notify a teacher, school counselor, the Principal, or another school employee as soon as possible to obtain assistance and intervention. The administration will investigate any allegations of bullying or other related misconduct. The District will also provide notice to the parent of the alleged victim and the parent of the student alleged to have engaged in bullying. Reports of potential bullying may be submitted anonymously.

Investigation of Report

The Principal or designee shall determine whether the allegations in the report, if proven, would constitute prohibited harassment and, if so, proceed under that policy instead. The Principal or designee shall conduct an appropriate investigation based on the allegations in the report, and shall take prompt interim action calculated to prevent bullying during the course of an investigation, if appropriate.

If the results of an investigation indicate that bullying occurred, the administration will take appropriate disciplinary action and may notify law enforcement in certain circumstances. Disciplinary or other action may be taken even if the conduct did not rise to the level of bullying. Available counseling options will be provided to these individuals, as well as to any students who have been identified as witnesses to the bullying.

A student who receives special education services will be disciplined for conduct meeting the definition of bullying or cyberbullying within applicable requirements under federal law, including the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 *et seq.*). The District will not impose discipline on a student who, after an investigation, is found to be a victim of bullying, based on that student's use of reasonable self-defense in response to the bullying.

The Principal or designee may make a report to local law enforcement authorities if, after an investigation is completed, the Principal or designee has reasonable grounds to believe that a student engaged in conduct that constitutes an offense under Section 22.01 (Assault) or 42.07(a)(7) (Harassment), Texas Penal Code.

To the greatest extent possible, The District shall respect the privacy of the complainant and/or grievant, persons against whom a report is filed, and witnesses. Limited disclosures may be necessary to conduct a thorough investigation. If a law enforcement or other regulatory agency notifies the District that it is investigating the matter and requests that the school delay its investigation, the District will resume the investigation at the conclusion of the agency's investigation.

A student or parent who is dissatisfied with the outcome of the investigation may appeal through the District student and parent complaint and/or grievance procedure.

2.20 Safe School Choice

The District complies with TEA guidelines for the collection and maintenance of data regarding:

- Mandatory expellable offenses committed at school or at a school-related or school-sponsored activity, on or off school property, and

- Any student who becomes a victim of one of the following violent criminal offenses while in or on the grounds of the school the student attends:
 - Attempted murder;
 - Indecency with a child;
 - Aggravated kidnapping;
 - Aggravated assault on someone other than a District employee or volunteer;
 - Sexual assault or aggravated sexual assault against someone other than a District employee or volunteer;
 - Aggravated robbery, or
 - Continuous sexual abuse of young child or children.

School Safety Transfers

The parent of a student who becomes a victim of a violent criminal offense as described in the state guidelines for unsafe school choice options or who is assigned to a campus identified by TEA as persistently dangerous will be offered a transfer to a safe charter school within the District. For each transfer requested, the District will explore transfer options, as appropriate. Options may include a transfer agreement with another school district.

From a Persistently Dangerous School

The parent of a student attending a school identified as persistently dangerous will be provided notification of his or her right to request a transfer. Notification will occur at least 14 days prior to the start of the school year or, for a student enrolling subsequently, upon the student's enrollment. The parent must submit to the Superintendent or designee an application for transfer. The Superintendent or designee will complete the transfer prior to the beginning of the school year, if applicable, or within 14 calendar days of the request for a subsequently enrolling student. Any transfer arranged for a student from a campus identified by TEA as persistently dangerous will be renewed so long as the campus from which the student transferred retains that designation. The District will maintain, in accordance with the District's record retention schedule, documentation of notification to parents of the transfer option, transfer applications submitted, and action taken.

For a Victim of a Violent Criminal Offense

Within 14 calendar days after a violent criminal offense described above occurs in or on the grounds of the school the student attends or while attending a school sponsored or school related activity, on or off school property, the District will notify the parent of a student who is a victim of the offense of the parent's right to request a transfer. The parent must submit to the Superintendent or designee an application for transfer. The Superintendent or designee will approve or disapprove the request within 14 calendar days of its submission. Any transfer arranged for a student who was a victim of a violent crime as described above will be renewed so long as the threat to the student exists at the campus to which the student would typically be assigned. For each offense, the District will maintain for at least five years documentation of the nature and date of the offense, notification to the parent of the transfer option, transfer applications submitted, action taken, and other relevant information regarding the offense.

Additional Transfer Options

In circumstances described by Education Code 25.0341, a parent of a student who has been the victim of

a sexual assault, regardless of whether the offense occurred on or off school property, may request a transfer of the parent's child or the student assailant from the same campus.

2.21 Law Enforcement Agencies

Questioning of Students

When law enforcement officers or other lawful authorities wish to question or interview a student at school, the Principal or designee will cooperate fully regarding the conditions of the interview, including without parental consent, if necessary, if the questioning or interview is part of a child abuse investigation.

In other circumstances:

1. The Principal or designee will verify and record the identity of the official and request an explanation of the need to question or interview the student at school.
2. The Principal or designee ordinarily will make reasonable efforts to notify the student's parent unless the interviewer raises what the Principal or designee considers to be a valid objection.
3. The Principal or designee ordinarily will be present during the questioning or interview unless the interviewer raises what the Principal or designee considers to be a valid objection.

Students Taken into Custody

State law requires the District to permit a student to be taken into legal custody:

1. By a law enforcement officer if there is probable cause to believe the student has engaged in conduct that violates a penal law, delinquent conduct or conduct in need of supervision, or conduct that violates a condition of probation imposed by the juvenile court.
2. By a law enforcement officer to obtain fingerprints or photographs for comparison in an investigation.
3. By a law enforcement officer to obtain fingerprints or photographs to establish a student's identity, where the child may have engaged in conduct indicating a need for supervision, such as running away.
4. By a probation officer if there is probable cause to believe the student has violated a condition of probation imposed by the juvenile court.
5. By an authorized representative of Child Protective Services, Texas Department of Family and Protective Services ("DFPS"), a law enforcement officer, or a juvenile probation officer, without a court order, under the conditions set out in the Texas Family Code relating to the student's physical health or safety.
6. Pursuant to a properly issued directive to apprehend.
7. To comply with a properly issued directive from a juvenile court to take a student into custody.
8. To comply with an order of the juvenile court.
9. To comply with the laws of arrest.

Before a student is released to a law enforcement officer or other legally authorized person, the Principal or designee will verify the officer's identity and, to the best of his or her ability, verify the official's authority to take custody of the student.

The Principal or designee will immediately notify the Superintendent or designee and will ordinarily attempt to notify the parent unless the officer or other authorized person raises what the Principal or designee considers to be a valid documented objection to notifying the parents. Because the Principal or designee does not have the authority to prevent or delay a student's release to a law enforcement officer, any notification will most likely be after the fact.

2.22 Mental Health Promotion and Intervention

The District has developed protocols for providing a parent with a recommended intervention for a student with early warning signs and a possible need for early mental health or substance abuse intervention, or who has been identified as at risk of attempting suicide. The District's campus administration or school counselor will notify a parent within a reasonable amount of time after learning that a student has early warning signs and possible need for intervention, and will also provide additional information on available counseling options.

The District's intervention program includes all of the following:

- early mental health prevention and intervention;
- building skills related to managing emotions, establishing, and maintaining positive relationships, and responsible decision-making;
- substance abuse prevention and intervention;
- suicide prevention, intervention, and postvention;
- grief-informed and trauma-informed practices;
- positive school climates;
- positive behavior interventions and supports;
- positive youth development; and
- safe, supportive, and positive school climate.

The District has also developed protocols for staff members to notify the campus administrator or school counselor when identifying a student who may need intervention.

The campus administrator or school counselor may be reached at each school campus and can provide additional information about the school's intervention program, as well as materials on identifying risk factors, accessing resources for treatment, and accommodations available at school.

Mental Health Support (All Grade Levels)

The District has implemented programs to address the following mental health, behavioral health, and substance abuse concerns:

- Mental health promotion and early intervention;
- Building skills to manage emotions, establish and maintain positive relationships, and engage in responsible decision-making;
- Substance abuse prevention and intervention;
- Suicide prevention, intervention, and postvention (interventions after a suicide in a community);

- Grief, trauma, and trauma-informed care;
- Positive behavior interventions and supports;
- Positive youth development; and
- Safe, supportive, and positive school climates.

Staff are trained yearly to provide necessary identification, intervention and support using best practices in each area.

If a student has been hospitalized or placed in residential treatment for a mental health concern or substance abuse, the District has procedures to support the student's return to school. Please contact the campus administrator or school counselor for additional information.

Teachers and other school employees may discuss a student's behavior or academic progress with the student's parent or another employee; however, they are not permitted to recommend use of psychotropic drugs. A psychotropic drug is a substance used in the diagnosis, treatment, or prevention of a disease or as a component of a medication and that is intended to alter perception, emotion, or behavior. An employee who is a registered nurse, advanced nurse practitioner, a physician, or a certified or credentialed mental health professional can recommend that a student be evaluated by an appropriate medical practitioner, if appropriate.

Information on Student ID Cards

Each student ID card issued to a student in grade six or higher will have printed on the card the contact information for the National Suicide Prevention Lifeline and the Crisis Text Line.

2.23 Child Abuse Reporting and Programs

The District provides child abuse anti-victimization programs and cooperates with official child abuse investigators as required by law. The District also provides training to its teachers and students in preventing and addressing incidents of sexual abuse and other maltreatment of children, including knowledge of likely warning signs indicating that a child may be a victim of sexual abuse or maltreatment. Assistance, interventions, and counseling options are also available.

The school's administration shall cooperate with law enforcement investigations of child abuse, including investigations by the DFPS. School officials may not refuse to permit an investigator to interview a student who is alleged to be a victim of abuse or neglect at school. School officials may not require the investigator to permit school personnel to be present during an interview conducted at school.

Investigations at school may be conducted by authorized law enforcement or state agencies without prior notification or consent of the student's parent, if necessary.

2.24 Plan for Addressing Sexual Abuse, Trafficking, and Other Maltreatment of Children

The District has a plan for addressing child sexual abuse, trafficking, and other maltreatment of children.

For purposes of this plan, trafficking includes both sex and labor trafficking. The plan as described below may be accessed by contacting the campus counselor, Principal, or other administrator.

What is Sexual Abuse of a Child?

Sexual abuse in the Texas Family Code is defined as any sexual conduct harmful to a child's mental, emotional, or physical welfare as well as a failure to make a reasonable effort to prevent sexual conduct with a child. A person who compels or encourages a child to engage in sexual conduct commits abuse. It is illegal to make or possess child pornography or to display such material to a child.

What is Trafficking?

Child trafficking in any form is prohibited by the Texas Penal Code. Sex trafficking involves forcing a person, including a child, into sexual abuse, assault, indecency, prostitution, or pornography. Labor trafficking involves forcing a person, including a child, to engage in forced labor or services.

Traffickers may be trusted members of a child's community, such as friends, romantic partners, family members, mentors, and coaches, although traffickers frequently make contact with victims online.

What is Other Maltreatment of a Child?

Other maltreatment of a child under the Texas Family Code includes "abuse" or "neglect" of a child.

Reporting and Responding to Sexual Abuse, Trafficking, and Other Maltreatment of Children

Anyone who suspects that a child has been or may be abused, trafficked, or neglected has a legal responsibility, under state law, for reporting the suspected abuse or neglect to law enforcement or to the DFPS.

A child who has experienced sexual abuse, trafficking, or any other type of abuse or neglect should be encouraged to seek out a trusted adult. Be aware as a parent or other trusted adult that disclosures of sexual abuse and trafficking may be more indirect than disclosures of physical abuse and neglect, and it is important to be calm and comforting if your child, or another child, confides in you. Reassure the child that he or she did the right thing by telling you.

Parents, if your child is a victim of sexual abuse, trafficking, or other maltreatment, the school counselor or Principal will provide information regarding counseling options for you and your child that are available in your area. The DFPS also manages early intervention counseling programs. To find out what services may be available in your county, see [Texas Department of Family and Protective Services, Programs Available in Your County](#).

Reports of abuse, trafficking, or neglect may be made to:

- Texas Abuse Hotline: 1-800-252-5400;
- In non-emergency situations, the [Texas Abuse Hotline Website](#);
- Your local police department; or
- Call 911 for emergency situations.

Methods for Increasing Awareness Regarding Sexual Abuse, Trafficking, or Other Maltreatment

For Staff: The District trains staff in all content areas addressed in the Plan. Training is provided by campus staff, administrative staff, or outside agencies as determined by the campus administration. The training includes prevention techniques for and recognition of sexual abuse, trafficking, and all other maltreatment of children, including sexual abuse, trafficking, and other maltreatment of children with significant cognitive disabilities.

For Students: School counseling staff will address issues to increase awareness regarding sexual abuse, trafficking, and other maltreatment of children and anti-victimization programs with age-appropriate conversation and materials no less than once per school year. These discussions will occur in classroom group settings.

For Parents: Parents must be aware of warning signs indicating that their child may have been or is being sexually abused, trafficked, or otherwise maltreated.

The fact that the abuser is a parent or other family member does not remove your obligation to protect the child. Parents who permit their child to remain in a situation where he or she may be injured or abused may also be subject to prosecution for child abuse. If a parent is frightened for their own safety or that of their child, they should call 911 or 1-800-252-5400.

Also remember that parents are legally responsible for the care of their children and must provide their children with safe and adequate food, clothing, shelter, protection, medical care, and supervision, or arrange for someone else to provide these things. Failure to do so may be considered neglect.

Likely Warning Signs of Sexual Abuse, Trafficking, or Other Maltreatment

Possible warning signs of sexual abuse or other maltreatment may include:

- An older child behaving like a young child, for example, bedwetting or thumb-sucking.
- Becoming increasingly secretive about Internet or telephone use.
- Developing special relationships with older friends that may include unexplained money, gifts, or privileges.
- Difficulty sitting or walking, pain in the genital areas, and claims of stomachaches and headaches.
- Engaging in adult-like sexual activities with toys, objects, or other children.
- Fear of being alone with adults.
- Play, writing, drawings, or dreams of sexual or frightening images.

- Using new or adult words for body parts.
- Verbal references or pretend games of sexual activity between adults and children, fear of being alone with adults of a particular gender, or sexually suggestive behavior.
- Withdrawal, depression, sleeping and eating disorders, and problems in school.

Possible warnings signs of sexual trafficking include:

- Changes in school attendance, habits, friend groups, vocabulary, demeanor, and attitude.

- Provocative pictures posted online or stored on the phone.
- Refillable gift cards.
- Social interaction and schedule being strictly controlled by someone else.
- Sudden appearance of expensive items (for instance, manicures, designer clothes, purses, technology).
- Tattoos or branding.

Possible warning signs of labor trafficking in children include:

- Not being allowed breaks at work or being subjected to excessively long work hours.
- Not being in control of his or her own money.
- Owning a large debt and being unable to pay it off.

Any one sign does not necessarily mean that a child has been sexually abused, trafficked, or maltreated, but the presence of several signs is the time you should begin asking questions and seeking help. Often signs first emerge at other times of stress, such as during a divorce, death of a family member or pet, problems at school or with friends, or other traumatic or anxiety-inducing events.

Actions That a Child Who Is a Victim of Sexual Abuse, Trafficking, or Other Maltreatment Should Take

During student awareness sessions concerning sexual abuse, trafficking, and other maltreatment issues, students will be encouraged to tell a trusted adult in a private and confidential conversation if they have been a victim of sexual abuse, sex trafficked, or other maltreatment or have been in situations that make them feel uncomfortable in any way. School employees are trained to take appropriate actions to help

the child obtain assistance and to follow proper reporting procedures. Older students will also be provided with local crisis hotline numbers to obtain assistance.

Available Counseling Options

A list of counseling providers can be found through the Texas Department of Family and Protective Services, Programs Available in Your County website.

Notice of Penalties for Trafficking of Persons and Online Solicitation of a Minor

Under Penal Code 20A.02(b-1), an offense related to human trafficking is a first-degree felony if the offense is committed in a location that was on the premises of or within 1,000 feet of the premises of a school, or on premises or within 1,000 feet of premises where an official school function was taking place or an event sponsored or sanctioned by the University Interscholastic League was taking place.

Additionally, under Penal Code 33.021(f-1), there are enhanced penalties for the offense of online solicitation of a minor if the actor committed the offense during regular school hours and the actor knew or reasonably should have known that the minor was enrolled in a public or private school at the time of the offense.

2.25 Interrogations and Searches

In the interest of promoting student safety and attempting to ensure that the District is safe and drug free, school officials may, from time to time, conduct searches. Such searches are conducted without a warrant and as permitted by law.

Administrators, teachers, and other professional personnel may question a student regarding the student's own conduct or the conduct of other students. In the context of school discipline, students have no claim to the right not to incriminate themselves.

Students shall be free from unreasonable searches and seizures by school officials. School officials may search a student's outer clothing, pockets, or property by establishing reasonable cause or securing the student's voluntary consent.

A search is reasonable if (1) the school official has reasonable grounds for suspecting that the search will uncover evidence of a rule violation or a criminal violation and (2) the scope of the search is reasonably related to the circumstances justifying the search, such as the extent of the search, the objectives of the search, the age and sex of the student, and the nature of the infraction.

Desk and Locker Searches

Students should have no expectation of privacy in the contents of their lockers, desks, or other school property. Lockers and desks assigned to students remain at all times under the control and jurisdiction of the District. The school will make periodic inspections of lockers and desks at any time, with or without notice or student consent. School officials will remove any item that violates school policy or that may potentially be dangerous.

Students have full responsibility for the security of their lockers and desks, and shall be held responsible for any prohibited items found therein. A student's parent shall be notified if any prohibited articles or materials are found in a student's locker or desk, or on the student's person.

Vehicles on Campus

Vehicles parked on school property and property under school control are under the jurisdiction of the District and may be searched at any time if reasonable suspicion exists to believe that the search will result in evidence that school rules or other laws have been violated. If a vehicle subject to search is locked, the student shall be asked to unlock the vehicle and consent to a search of the vehicle. If the student refuses to permit the vehicle to be searched, the District may contact the student's parents and/or law enforcement officials. A student may be held responsible for and in possession of prohibited items found in his or her vehicle parked on school property or at a school-related event.

Random Drug Searches

In order to ensure a drug-free learning environment, the District conducts random drug searches of all school facilities. The District may use or contract for specially trained nonaggressive dogs to sniff out and alert school officials to the current presence of concealed, prohibited, or illegal items, including drugs and alcohol. Canine visits may be unannounced. The dogs shall be used to search vacant classrooms, vacant common areas, the areas around student lockers, and the areas where vehicles are parked on the District property or at school-related events. The dogs shall not be asked to alert on students. A dog alert to a locker, vehicle, or item in a classroom, constitutes reasonable grounds for a search by school officials.

2.26 Visitor and Volunteer Policy

The District encourages parents and family members to regularly visit the school and become involved in student activities. The impact that positive parental involvement has on the learning and development of students is immeasurable. With that in mind, the following policies must be adhered to so that a safe, secure, and productive learning environment can be ensured for all.

- Visitors MUST sign in at the main office whenever they are on campus. They will be provided with a visitor ID that must be worn while on campus. Visitors are not permitted to make unscheduled or drop-in visits to classrooms.
- When visiting campus to meet with teaching staff, visitors must have a pre-arranged time set up with the teacher(s) in question except for urgent matters. Times are best arranged via email. An email directory is located on our website. With few exceptions, conferences are scheduled during teacher/team planning time, and/or immediately before or after school. Under no circumstances can a teacher be interrupted while providing instruction before, during, or after the school day to meet with a parent.
- Visitors to campus must be the parent, guardians, or other adult family members with permission of the parent/guardian. Students' friends, younger siblings, and other non-related individuals cannot visit the campus during school hours.
- Visitors may have a background check completed prior to gaining access to the campus.
- Volunteers MUST go through a background check conducted by our district office. Once the check is cleared, volunteers are notified and may begin helping on campus. Until this clearance is

obtained, they are not to be involved in any educational or extra-curricular activities.

In the interest of non-disruption of learning and school activities, parents, and other visitors to a virtual or in-person classroom, shall request and receive permission from the teacher or a campus administrator before recording video or audio, or photographing classroom activities.

Additionally, the Principal or designee may take the following actions regarding school visitors:

- Establish an electronic database for storing information concerning visitors. Information stored in the electronic database may be used only for school security and may not be sold or otherwise disseminated to a third party for any purpose.
- Verify whether the visitor is a sex offender registered with the computerized central database maintained by the DPS or any other database accessible by the District .

Any visitor identified as a sex offender shall be escorted by school personnel at all times during a school visit and shall have access only to common areas of the campus.

2.27 Disruptions

To protect student safety and sustain an educational program free from disruption, state law permits the District to act against any person—student or nonstudent who:

- Disrupts classes while on school property or on public property that is within 500 feet of school property. Class disruption includes making loud noises; trying to entice a student away from, or to prevent a student from attending, a required class or activity; entering a classroom without authorization; and disrupting the activity with profane language or any misconduct.
- Interferes with an authorized activity by seizing control of all or part of a building.
- Interferes with the movement of people at an exit or an entrance to school property.
- Interferes with the movement of people at an exit, an entrance, or a hallway to a school building without authorization from an administrator.
- Interferes with the transportation of students in school vehicles.
- Uses force, violence, or threats in an attempt to prevent participation in an authorized assembly.
- Uses force, violence, or threats in an attempt to prevent people from entering or leaving school property without authorization from an administrator.
- Uses force, violence, or threats to cause disruption during an assembly.

2.28 Emergency Closings

Generally, the District dismisses classes for weather-related events on the same days as surrounding local independent school districts. Any closures for weather will be broadcast on local television and/or radio stations. the District may also need to close during certain emergency situations beyond the control of school officials. The announcement of non-weather related school closings will be broadcast on local television and/or radio stations as early as possible. Any emergency closures will also be posted on the District website.

2.29 Drills: Fire, Tornado, Secure, Lock Down, Evacuation, Shelter in Place and Other Emergencies

Students, teachers, and other staff will participate in drills of emergency procedures. When the alarm is sounded, students should follow the direction of school staff quickly, quietly, and in an orderly manner. During the drill, order rather than speed shall be stressed. Defined instructions for vacating each room will be posted in each room, and students should familiarize themselves with these instructions. Minimal drill requirements include:

- Secure Drill: 1 per school year
- Lockdown Drill: 2 per school year (one per semester)
- Evacuation Drill: 1 per school year
- Shelter-in-Place for Hazmat Drill: 1 per school year
- Shelter for Severe Weather Drill: 1 per school year
- Fire Evacuation Drill: 4 per school year (two per semester)

Active Threat Exercises

Before the District may conduct an active threat exercise, including an active shooter simulation, the District shall comply with the notice requirements of Education Code § 37.1141(a)(1)-(3), including adequate notice of the exercise to students, parents, school staff, and first responder organizations that would likely respond in the event of a false report or alarm.

Additional information on drill requirements may be found on the Texas School Safety Center website.

2.30 Pest Control Information

the District periodically applies pesticides inside school buildings and on school grounds. While the District strives to use the safest and most effective methods to manage pests, including a variety of non-chemical control measures, periodic indoor and outdoor pesticide use is sometimes necessary to maintain adequate pest control and ensure a safe, pest-free environment.

All pesticides used are registered for their intended use and are applied only by certified pesticide applicators. the District will provide appropriate notice of treatments, and signs will remain until it is safe to enter the area. Parents who want to be notified prior to pesticide application may contact the Superintendent or designee.

2.31 Videotaping of Students

For safety purposes, including the maintenance of order and discipline, surveillance cameras may be used to monitor student behavior in classrooms, on school vehicles, and in school common areas. Video recordings may be reviewed routinely to document student misconduct and used by staff when investigating an incident. All recording of students must receive prior approval from the superintendent or designee.

SECTION 3: ACADEMICS AND GRADING

3.1 Academic Programs

The Principal or designee will provide students and parents with information regarding academic programs to prepare for higher education and career choices.

A student removed from the regular classroom to in-school suspension, or another setting will have an opportunity to complete his or her daily work just as if they were in the regular learning center.

Students and parents are encouraged to discuss options for ensuring that students complete all work required with a teacher, the Principal or designee.

3.2 Required Curriculum

The District offers instruction in the Texas Essential Knowledge and Skills of the appropriate grade levels in the following required curriculum:

The TEKS Resource System provides the general curriculum structure alongside of AP/Pre-AP framework. The content includes curriculum components and sample unit assessment items aligned to the most current versions of the State Board of Education-adopted TEKS for the following subject areas:

- English Language Arts and Reading
- Spanish Language Arts and Reading
- Mathematics
- Science
- Social Studies
- Spanish translated versions of Mathematics, Science, and Social Studies

The Advanced Placement Program® (AP) enables willing and academically prepared students to pursue college-level studies while still in high school. The program consists of college-level courses developed by the AP Program that high schools can choose to offer, and corresponding exams that are administered once a year. Pre-AP courses as grade-level instruction designed to build the critical thinking skills students will need to succeed in AP courses, college, and future careers.

For any social studies course in the required curriculum, the District may not require, make part of a course, or award a grade or course credit (including extra credit) for a student's:

1. Work for, affiliation with, or service learning in an association with any organization engaged in (i) lobbying for legislation at the federal, state, or local level, if the student's duties involve directly or indirectly attempting to influence social or public policy or the outcome of legislation, or (ii) social policy advocacy or public policy advocacy;
2. Political activism, lobbying, or efforts by direct communication to persuade members of the legislative or executive branch at the federal, state, or local level to take specific actions by direct

communication; or

3. Participation in any internship, practicum, or similar activity involving social or public policy advocacy.

Additionally, the District may not implement or enforce any rules of student conduct in a manner that would result in a student's punishment for discussing, or have a chilling effect on reasonable student discussions involving those concepts described in Education Code § 28.002(a)(4) in school or during a school-sponsored activity.

3.3 Academic Integrity

All students are expected to be honest and to display a high standard of integrity in the preparation and presentation of work for credit in classes. A student's attempt to present the work of another as his or her own will be viewed as a serious offense, and the student may be subject to a grading penalty and/or discipline in accordance with the Student Code of Conduct.

3.4 Grading and Student Assessment/Evaluations

Burnham Wood Family of Charter Schools determines a student's progress towards mastery of the skills and concepts of the School's curriculum, teachers will use various indicators to monitor and assess this progress. Indicators will include a combination of the following, with emphasis given to an individual student's learning style and applicability to the content:

- Composition
- Book reviews/reports
- Class discussions
- Textbook tests
- Oral Interviews
- Teacher-made tests

Students who miss assignments due to an absence will be given the opportunity to make up the assignments. Teachers may not assign conduct scores that result in a student failing the course.

3.5 Armed Services Vocational Aptitude Battery Test

A student in grades 10–12 will be offered an opportunity to take the Armed Services Vocational Aptitude Battery (“ASVAB”) test and consult with a military recruiter. the District will provide each student in grades 10–12 and their parents with notice of the date, time, and location of the scheduled administration of the ASVAB.

3.6 Career and Technical Education Programs

The District may offer, from time to time, career and technical education (“CTE”) programs in a variety of areas. For a complete listing of CTE courses, please contact the Principal. Admission to these programs is based on student interest and completion of any pre-requisites required by the District.

It is the policy of the District not to discriminate on the basis of race, color, national origin, sex, or handicap in its vocational programs, services, or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973, as amended.

It is the policy of the District to not discriminate on the basis of race, color, national origin, sex, handicap, or age in its employment practices as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, as amended; and Section 504 of the Rehabilitation Act of 1973, as amended.

The District will take steps to ensure that lack of English language skills will not preclude a student from participating in all educational, and career and vocational programs.

Information regarding student/parent rights and grievance procedures, may be obtained by contacting the Title IX/ Section 504 Coordinator at Taylor Glenn, 785 Southwestern Drive, El Paso, TX 79912, (915) 584-4024, tglenn@burnhamwood.org or Chasity Lenahan, 785 Southwestern Drive, El Paso, TX 79912, (915) 584-4024, clenahan@burnhamwood.org.

3.7 College Days

High school students who meet the following criteria will be allowed to have two excused days of absence for a college visit during their junior year and two excused days of absence for a college visit during their senior year:

- The student must have passed the required parts of the State of Texas Assessments of Academic Readiness (“STARR”) / equivalent state assessment for the previous year.
- The student must be on track to graduate on time.
- The student must be classified as a junior or senior based upon credits earned.
- The student must be passing all course work.
- The student must have no truancy or other attendance problems.

Students must submit a written request to the school office at least two days prior to the day requested for a college visit so that eligibility criteria for an excused day of absence can be verified and approval granted prior to the student participating in a college visit. Approval will not be granted for a college visit on a day when major exams are scheduled, and no partial days will be approved.

3.8 Computer Resources

To prepare students for an increasingly computerized society, the District has made a substantial investment in computer technology for instructional purposes. Use of these resources is restricted to students working under a teacher’s supervision and for approved purposes only. Students and parents must read and agree to abide by the Student Acceptable Use Policy found in this Handbook.

3.9 Counseling

Academic/School Counseling

Students and parents are encouraged to talk with the school counselor to learn about course offerings, graduation requirements, and early graduation procedures. Students in 8th–12th grade will have access to information on anticipated course offerings for the next year and other information that will help to make the most of academic and vocational opportunities.

To plan for the future, including attendance at a college, university, or training school or pursuing some other type of advanced education, students should work closely with the school counselor to take the courses that best prepare them for the future. The school counselor can also provide information about entrance exams and application deadlines, as well as information about automatic admission to state colleges and universities, financial aid, housing, and scholarships.

The Principal or designee and the school counselor are available to assist students with a wide range of personal concerns, including social, family, or emotional issues, and substance abuse. The Principal, designee or school counselor may also provide information about community resources to address these concerns. A student who wishes to meet with the Principal or designee or school counselor should set an appointment through the school secretary.

Unless required by state or federal law for special education purposes or by the TEA for child abuse investigations and reports, the District will not conduct a psychological examination, test, or treatment absent a parent's written consent.

3.10 Credit by Exam

The District adheres to examinations and guidelines established by the State Board of Education ("SBOE") to offer credit and acceleration by exam.

If a Student has Prior Instruction (Grades 6–12)

A student who has previously taken a course or subject (but did not receive credit or a final grade for that course) may, in circumstances determined by the Principal or Attendance Review Committee, be permitted to earn credit or a final grade by passing an exam on the essential knowledge and skills defined for the course or subject. Prior instruction may include, for example, incomplete coursework due to a failed course or excessive absences, homeschooling, or coursework by a student transferring from a nonaccredited school. The opportunity to take an examination to earn credit for a course or to be awarded a final grade in a subject after the student has had prior instruction is sometimes referred to as "credit recovery." To receive credit, a student must score at least 70% on the exam.

The Attendance Review Committee may also offer a student with excessive absences an opportunity to receive credit for a course by passing an exam.

If a Student Has Not Taken the Course

A student will be permitted to take an exam to earn credit for an academic course or subject area for which the student has had no prior instruction or to accelerate to the next grade level. The exams offered by the District are approved by the Board of Directors. The dates on which exams are scheduled during the school year will be published in an appropriate school publication and on the District website.

A student in grade 6 or above will earn course credit with a passing score of at least 80 on the exam, a scaled score of 50 or higher on an examination administered through the College Level-Level Examination Program, or a score of three or higher on an Advanced Placement ("AP") examination, as applicable. A student may take an exam to earn course credit no more than twice. If a student fails to achieve the designated score on the approved exam before the beginning of the school year in which the student would need to enroll in the course according to the school's course sequence, the student must complete the course.

If a student plans to take an exam, the student (or parent) must register with the Principal or designee no later than 30 days prior to the scheduled testing date. The District will consider a request by a parent to administer a test on a date other than the published dates. If the District agrees to administer a test other than the one chosen by the school, the student's parent will be responsible for the cost of the exam.

3.11 Dual Credit Opportunities

A dual credit course is a college course taken by a high school student for which the student earns both

college and high school credit. Dual credit is also known as concurrent enrollment.

A student is eligible to enroll in dual credit courses in the 11th or 12th grade if the student:

- Demonstrates college readiness by achieving the minimum passing standards under the Texas Success Initiative (“TSI”) as set forth in 19 Texas Administrative Code § 4.85, on relevant section(s) of an assessment instrument approved by the SBOE; or
- Demonstrates that he or she is exempt under the provisions of the TSI as set forth in 19 Texas Administrative Code § 19.54.

An 11th grade student is also eligible to enroll in dual credit courses in reading, writing, and/or mathematics if he or she satisfies standards set by the Texas Higher Education Coordinating Board. As these requirements may change from time to time, students and parents are encouraged to contact the Director of College and Career Readiness and/or Chief Academic Officer of the participating college for current requirements.

Students in grades 11 and/or 12 are eligible to enroll in workforce education dual credit courses if the student demonstrates that he or she achieved the designated minimum standards set by the Texas Higher Education Coordinating Board. A student who is exempt from taking the Texas Assessment of Knowledge and Skills or STAAR end-of-course assessments may be otherwise evaluated to determine eligibility for enrolling in workforce education dual credit courses. A student may enroll only in those workforce education dual credit courses for which he or she has demonstrated eligibility.

Students may not enroll in more than two dual credit courses per semester. A student may be exempt from this requirement only through approval by the Director of College and Career Readiness and the Chief Academic Officer of the participating college if the student demonstrates outstanding academic performance and capability.

Students and parents may be responsible for fees for dual credit courses.

3.12 Distance Learning

Distance learning and correspondence courses include courses that encompass the state-required essential knowledge and skills but are taught through multiple technologies and alternative methodologies, such as mail, satellite, Internet, video-conferencing, and instructional television.

The Texas Virtual School Network (“TxVSN”) has been established as one method of distance learning. A student has the option, with certain limitations, to enroll in a course offered through the TxVSN to earn course credit for graduation. If you have questions or wish to make a request that your child be enrolled in a TxVSN course, please contact the Superintendent or designee. Unless an exception is made by the Superintendent or designee, a student will not be allowed to enroll in a TxVSN course if the school offers the same or a similar course.

If a student wishes to enroll in a correspondence course or a distance learning course that is not provided

through the TxVSN in order to earn credit in a course or subject, the student must receive permission from the Superintendent or designee prior to enrolling in the course or subject. If the student does not receive prior approval, the District may not recognize and/or apply the course or subject toward graduation requirements or subject mastery.

3.13 Extracurricular Activities, Clubs, and Organizations

Participation in school-related activities is an excellent way for a student to develop talents, receive individual recognition, and build strong friendships with other students. Participation, however, is a privilege and not a right. Eligibility for participation in many school-related activities is governed by state law and rules of the UIL, a statewide association overseeing interscholastic competition between public schools. Additional information regarding extracurricular activities, clubs, and organizations may be obtained from the Principal or designee.

Participation in these activities may result in events that occur off-campus. Students are required to use the transportation provided by the District to and from the event and exceptions may only be made with approval from the activity's coach or sponsor.

Please note: Sponsors of student clubs and performing groups such as the band, choir, and drill and athletic teams may establish standards of behavior – including consequences for misbehavior – that are stricter than those for students in general. If a violation of organization rules is also a violation of school rules, the consequences specified by the Student Code of Conduct or by local policy will apply in addition to any consequences specified by the organization.

3.14 Graduation (High School Grades Only)

The District shall ensure that each student enrolls in the courses necessary to complete the curriculum requirements identified by the SBOE for graduation. Additionally, students must meet the following requirements to receive a high school diploma:

1. Achieve passing scores on certain end-of-course ("EOC") assessments or approved substitute assessments, unless specifically waived as permitted by State law;
2. Complete any locally required courses in addition to the courses mandated by the SBOE;
3. Complete the required number of credits established by the SBOE and any additional credits required by the District; and
4. Demonstrate proficiency, as determined by the District, in the specific communication skills required by the SBOE.

Testing Requirements for Graduation

Students are required, with limited exceptions, to perform satisfactorily on the following EOC assessments: English I, English II, Algebra I, Biology, and U.S. History. A student who has not achieved sufficient scores on the EOC assessments to graduate will have opportunities to retake the assessments. State law and state rules also provide for certain scores on norm-referenced national standardized assessments or on the state-developed assessment used for entrance into Texas public universities to

substitute for the requirement to meet satisfactory performance on an applicable EOC assessment should a student choose this option. See the Principal or designee for more information on the state testing requirements for graduation.

If a student fails to perform satisfactorily on an EOC assessment, the District will provide remediation in the content area for which the performance standard was not met. This may require student participation before or after normal school hours, or at times of the year outside of normal school operations.

In limited circumstances, a student who fails to demonstrate proficiency on two or fewer of the required assessments may be eligible to graduate, if an individual graduation committee, formed in accordance with state law, unanimously determines that the student is eligible to graduate. Please see the Principal or designee for more information on the makeup of an individual graduation committee and all other requirements for graduation.

Foundation Graduation Program

Every student in a Texas public school who entered grade 9 in the 2014–2015 school year and thereafter will graduate under the foundation graduation program. Within the foundation graduation program are “endorsements,” which are paths of interest that include Science, Technology, Engineering, and Mathematics; Business and Industry; Public Services; Arts and Humanities; and Multidisciplinary Studies. Endorsements earned by a student will be noted on the student’s transcript and diploma. The foundation graduation program also involves the term “distinguished level of achievement,” which reflects the completion of at least one endorsement and Algebra II as one of the required advanced mathematics credits.

State law and rules prohibit a student from graduating solely under the foundation graduation program without an endorsement unless, after the student’s sophomore year, the student and the student’s parent are advised of the specific benefits of graduating with an endorsement and submit written permission to an appropriate school administrator for the student to graduate without an endorsement. A student who anticipates graduating under the foundation graduation program without an endorsement and who wishes to attend a four-year university or college after graduation must carefully consider whether this will satisfy the admission requirements of the student’s desired college or university.

Graduating under the foundation graduation program will also provide opportunities to earn “performance acknowledgements” that will be acknowledged on a student’s diploma and transcript. Performance acknowledgements are available for outstanding performance in bilingualism and biliteracy, in a dual credit course; on an AP or IB exam; on the PSAT, ACT-Plan, SAT, or ACT exam; or for earning a nationally or internationally recognized license or certificate. The criteria for earning these performance acknowledgements are prescribed by state rules, and the Principal or designee can provide more information about these acknowledgments.

Students with Disabilities: Upon the recommendation of the admission, review, and dismissal committee, a student with a disability who receives special education services may be permitted to graduate under the provisions of his or her IEP and in accordance with state rules.

A student who receives special education services and has completed four years of high school, but has

not met the requirements of his or her IEP, may participate in graduation ceremonies and receive a certificate of attendance. Even if the student participates in graduation ceremonies to receive the certificate of attendance, he or she may remain enrolled to complete the IEP and earn his or her high school diploma; however, the student will only be allowed to participate in one graduation ceremony.

The admission, review, and dismissal committee for students with disabilities who receive special education services will make instructional and assessment decisions for these students in accordance with state law and rules. To earn an endorsement under the foundation graduation program, a student must perform satisfactorily on the EOC assessments and receive no modified curriculum in the student's chosen endorsement area. A student may still be awarded an endorsement when the student fails to perform satisfactorily on no more than two EOC assessments but meets the other requirements for graduation under state law.

3.16 Grade Point Average (GPA) and Student Ranking

A system of weighted grades has been developed for Dual Credit, Pre-Advanced Placement and Advanced Placement courses, which gives additional weight to grades earned in those courses. The weighted grade is used only when determining a student's grade point average (GPA) and is not reflected on the report card.

Beginning with all classes in the 2022-23 school year, the following weights apply to rankings:

- an additional five points are added to the student's aggregate grade point average for each Pre-AP course
- an additional ten points are earned for Advanced Placement
- an additional twelve points for Dual Credit Permian Basin courses
- an additional fifteen points for On Ramps/Dual Credit University of Texas courses
- an additional dual credit and college/university will be weighted prior to initiation of said program and available from campus administration

Students enrolled in Pre-AP and /or AP courses but receiving modifications in terms of not being required to work at the Pre-AP or AP rigor will not receive a Pre-AP or AP designation on their record nor any additional weight to their grade.

Courses that are modified from grade level expectations, will receive no additional weight.

3.17 Valedictorian and Salutatorian

The valedictorian and salutatorian shall be the eligible students with the highest and second highest rank, respectively. To be eligible for such recognition, a student must:

1. Have been continuously enrolled in the same high school in the District for the four regular (fall and spring) semesters immediately preceding graduation; and
2. Be enrolled at the time of the graduation ceremony.
3. Breaking Ties
4. In case of a tie in weighted numerical grade averages, the District shall apply the following methods,

in this order, to determine recognition as valedictorian or salutatorian0.:

5. Compute the weighted numerical grade average to a sufficient number of decimal places until the tie is broken.
6. Calculate a weighted numerical grade average only using eligible grades earned from the beginning of the junior year through the fifth six-week grading period of the senior year.
7. If the tie is not broken after applying these methods, the District shall recognize all students involved in the tie as sharing the honor and title

3.18 Promotion and Retention

A student may be promoted on the basis of academic achievement and/or demonstrated proficiency in the subject matter of the course or grade level. To earn credit in a course, a student must demonstrate mastery on grade level standards and meet the District's requirements for attendance. A student in grades 9–12 will be advanced a grade level based on the number of course credits earned.

A student may be considered for retention if they have met any of the following criteria:

1. failed one or more core subject areas;
2. failed one or more state assessments;
3. is below level in one or more core subject areas; or
4. missed more than 10% of instructional days in an academic year. The decision must be made by a committee, which is comprised of the child's core subject area teachers, the counselor, and the Principal or designee.

Special Education Students: A student's IEP can modify the school's promotion criteria in whole or in part. Any modified promotion standards shall be determined by the student's ARD committee and documented in the IEP. A student's ARD committee may also make determinations on whether a student will be promoted or retained.

Parent Option for Students to Repeat Grades or Courses

In certain circumstances, a parent may elect for a student to repeat a grade or retake a high school course. Subject to certain restrictions, a parent may elect for a student to:

1. Repeat prekindergarten;
2. Enroll in prekindergarten if the child was eligible to enroll in free prekindergarten under Education Code § 29.153(b) and has not yet enrolled in kindergarten;
3. Repeat kindergarten;
4. Enroll in kindergarten if the child would have enrolled in kindergarten in the previous school year and has not yet enrolled in first grade;
5. For grades one through three, repeat the grade the student was enrolled in the previous school year;
6. For grades four through eight, repeat the grade the student was enrolled in the previous school year; and/or
7. For courses taken for high school credit, repeat any course in which the student was enrolled

during the previous school year.

A parent may not elect for a student to repeat a course identified in item 7 above if the District determines the student has met all of the requirements for graduation.

An election for a student to repeat a grade or retake a high school course must be made in writing. If the District disagrees with a parent election for a student to repeat a grade or retake a high school course, the school must convene a retention committee and meet with the parent to discuss retention. The meeting must be conducted in person unless the parent agrees to alternative means. A student may not be retained for a grade or repeat a course if the parent does not meet with the retention committee.

The retention committee will be composed of the Principal or designee, the student's parent, the teacher who taught the grade or course for which the parent wants the student retained or repeated, and additional teachers at the discretion of the Principal, if the student will potentially repeat multiple courses. During the retention meeting, the District and the parent will discuss the merits of and concerns with advancement and retention, and review and consider the student's grade in each subject or course, the results of any formative or summative assessments administered to the student, and any other available academic information to determine the student's academic readiness for the next grade or a given course. After the parent has participated in a retention committee meeting, the parent shall decide whether the student should be retained or retake a grade or course. the District must abide by the parent's decision.

A parent's ability to elect for a student to be retained in the grade level or repeat a course in grades 4 and above will expire on September 1, 2022.

3.19 Report Cards

Report cards with each student's grades or performance and absences in each class or subject are issued to parents at least once every nine weeks. During the fourth week of a nine-week grading period, parents will be given a written progress report if their child's performance in English language arts, mathematics, science, or social studies is near or below 70%, or is below the expected level of performance. If the student receives a grade lower than 70% in any class or subject at the end of a grading period, the parent will be requested to schedule a conference with the teacher of that class or subject. The report card or progress report will state whether tutorials are required for a student who receives a grade lower than 70% in a class or subject. Report cards and progress reports must be signed by the parent and returned to the school within seven days.

Questions about grade calculation should first be discussed with the teacher; if the question is not resolved, the parent or student may request a conference with the Principal or designee. State law provides that a test or course grade issued by a teacher cannot be changed unless the Board of Directors determines that the grade was arbitrary or contains an error, or that the teacher did not follow the school's grading policy.

3.20 Special Programs

Students Who Speak a Primary Language Other than English

A student may be eligible to receive specialized support if his or her primary language is not English, and the student has difficulty performing regular class work in English. If the student qualifies for these extra services, the Language Proficiency Assessment Committee ("LPAC") will determine the types of services the student needs, including accommodations or modifications related to classroom instruction, local assessments, and state-mandated assessments.

A student may not be exited from the bilingual or ESL program in pre-kindergarten through grade one. The LPAC may exit a student from the bilingual or ESL program if the student is able to participate equally in a regular all-English instructional program pending appropriate assessment, parental denial, or documentation. If a student is exited from the program he/she may be enrolled if later evidence reveals that the student has inadequate English proficiency. The School shall notify parents of a student's exit from the bilingual or ESL program.

Aiding Students Who Have Learning Difficulties or Who Need Special Education or Section 504 Services

For those students who are having difficulty in the regular classroom, all school districts and open enrollment charter schools must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention ("RtI"). The implementation of RtI has the potential to have a positive impact on the ability of districts and charter schools to meet the needs of all struggling students.

If a student is experiencing learning difficulties, his or her parent may contact the individual(s) listed below to learn about the school's overall general education referral or screening system for support services. This system links students to a variety of support options, including making a referral for a special education evaluation or for a Section 504 evaluation to determine if the student needs specific aids, accommodations, or services. A parent may request an evaluation for special education or Section 504 services at any time.

Special Education Referrals

If a parent makes a written request for an initial evaluation for special education services to the director of special education services or an administrative employee of the school district or open enrollment charter school, the district or charter school must respond no later than 15 school days after receiving the request. At that time, the district or charter school must give the parent a prior written notice of whether it agrees to or refuses to evaluate the student, along with a copy of the Notice of Procedural Safeguards. If the school district or charter school agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.

Please note that a request for a special education evaluation may be made verbally and does not need to be in writing. Districts and charter schools must still comply with all federal prior written notice and procedural safeguard requirements and the requirements for identifying, locating, and evaluating children who are suspected of being a child with a disability and in need of special education. However, a verbal

request does not require the district or charter school to respond within the 15-school-day timeline.

If the district or charter school decides to evaluate the student, it must complete the student's initial evaluation and evaluation report no later than 45 school days from the day it receives a parent's written consent to evaluate the student. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period will be extended by the number of school days equal to the number of school days that the student is absent.

There is an exception to the 45-school-day timeline. If a district or charter school receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30 of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30th due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply.

Upon completing the evaluation, the district or charter school must give the parent a copy of the evaluation report at no cost.

Additional information regarding special education is available from the district or charter school in a companion document titled *Parent's Guide to the Admission, Review, and Dismissal Process*.

Contact Person for Special Education Referrals

The designated person to contact regarding options for a student experiencing learning difficulties or regarding a referral for evaluation for special education services is: Chasity Lenahan, 785 Southwestern Drive, El Paso, TX 79912, (915) 584-4024, clenahan@burnhamwood.org.

Section 504 Referrals

Each school district or charter school must have standards and procedures in place for the evaluation and placement of students in the district's or charter school's Section 504 program. Districts and charter schools must also implement a system of procedural safeguards that includes notice, an opportunity for a parent or guardian to examine relevant records, an impartial hearing with an opportunity for participation by the parent or guardian and representation by counsel, and a review procedure.

Notification to Parent of Intervention Strategies for Learning Difficulties Provided to General Education Students

The District will annually notify parents that it provides assistance to students, other than those already enrolled in a special education program, who need assistance for learning difficulties, including intervention strategies.

Services for Title I Participants

Information regarding the District's Title I program may be obtained from campus administration or superintendent.

Students with Physical or Mental Impairments Protected under Section 504

A student with a physical or mental impairment that substantially limits a major life activity, as defined by law, and who does not otherwise qualify for special education services may qualify for protections under Section 504 of the Rehabilitation Act of 1973 ("Section 504"). Section 504 is a federal law designed to prohibit discrimination against persons with disabilities. When an evaluation is requested, a committee will be created to determine whether the student needs Section 504 services and supports in order to receive an appropriate education as required by federal law.

3.21 Standardized Testing

State of Texas Assessments of Academic Readiness

In addition to routine tests and other measures of achievement, students in grades 3–8 will take the state assessment, the STAAR exam, in the following subjects:

- Mathematics, annually in grades 3–8;
- Reading, annually in grades 3–8;
- Writing, including spelling and grammar, in grades 4 and 7;
- Science in grades 5 and 8; and
- Social Studies in grade 8.

STAAR Alternate 2 is available for eligible students receiving special education services and who meet certain state-established criteria, as determined by the student's admission, review, and dismissal committee.

STAAR Spanish is available for eligible students for whom a Spanish version of STAAR is the most appropriate measure of their academic progress.

End-of-Course Assessments for Students in Grades 9–12

STAAR or EOC assessments are administered for the following courses:

- Algebra I;
- Biology;
- English I and II; and

- United States History.

Satisfactory performance on the applicable assessments will be required for graduation, unless otherwise waived or substituted as allowed by state laws and rules.

There are three testing windows during the school year in which a student may take an EOC assessment, which will occur during the fall, spring, and summer months. If a student does not meet satisfactory performance, the student will have additional opportunities to retake the assessment.

STAAR Alternate 2 is available for eligible students receiving special education services and who meet certain state-established criteria, as determined by the student's admission, review, and dismissal committee. The student's admission, review, and dismissal committee will determine whether successful performance on the EOC assessments will be required for a student receiving special education services to graduate, in accordance with parameters set in state regulations.

Accelerated Instruction: Grades 3–8

The District will provide accelerated instruction meeting the requirements of Education Code § 28.0211(a-1) and 28.0211(a-4), as applicable, to each student who fails to perform satisfactorily on the STAAR exam in the third, fourth, fifth, sixth, seventh, or eighth grade either during the subsequent summer or school year.

Accelerated instruction provided during the following school year may require participation of the student before or after normal school hours.

A student may be removed from accelerated instruction only under circumstances for which a student who is enrolled in the same grade level and who is not receiving accelerated instruction would be removed, from: (1) instruction in the foundation and enrichment curriculum for the grade level in which the student is enrolled, or (2) recess or other physical activity that is available to other students enrolled in the same grade level.

Accelerated Learning: Grades 9–12

High school student failing to perform satisfactorily on an EOC assessment, shall be provided with accelerated instruction in the applicable subject area. This accelerated instruction may require the student's participation before or after normal school hours, or at a time of the year outside normal school operations. This accelerated instruction will also be provided in a manner consistent with Education Code § 28.0211.

Accelerated Learning Committees

An accelerated learning committee ("ALC") shall be established for each student failing to perform satisfactorily on:

1. The third-grade mathematics or reading STAAR assessment;
2. The fifth-grade mathematics or reading STAAR assessment; or

3. The eighth-grade mathematics or reading STAAR assessment.

A student's ALC will be composed of the Principal or designee, the students' parent, and the teacher of the subject of the assessment on which the student failed to perform satisfactorily.

The ALC will, not later than the start of the subsequent school year after the student fails to perform satisfactorily on one of the STAAR exams mentioned above, develop an educational plan for the student that provides the necessary accelerated instruction to enable the student to perform at the appropriate grade level by the conclusion of the school year. The educational plan must be documented in writing, and a copy must be provided to the student's parent or guardian.

If more than one classroom teacher is available, parent of a student who fails to perform satisfactorily on one of the above-mentioned STAAR exams, may submit a written request the Principal to consider the student's assignment to a particular classroom teacher in the applicable subject area for the subsequent school year. Notwithstanding, the District retains full and final discretion to make classroom assignments based on campus needs and classroom capacity.

During the school year, the student's progress will be monitored to ensure that the student is progressing in accordance with the plan and the student shall be administered the assessment instrument for the grade level in which the student is placed at the same time as said assessment is administered to other students in the same grade level.

If a student assigned to an educational plan fails in the subsequent school year to perform satisfactorily on a STAAR exam in the same subject, the Superintendent or designee will meet with the student's ALC to: (1) identify the reason the student did not perform satisfactorily, and (2) determine, in order to ensure the student performs satisfactorily on next administration of the STAAR exam, whether the student's educational plan must be modified and if any additional resources are required for the student.

The student's parent may contest the content or implementation of an educational plan developed by the ALC by submitting a written complaint to the Principal within (1) seven calendar days of the parent's receipt of the educational plan or (2) within seven calendar days of the parent's concern that the educational plan is not being properly implemented. The designated administrator will conduct a conference with the parent within five school days of the Principal's receipt of the written complaint and issue a written decision within five school days of the conference. A parent who is dissatisfied with the designated administrator's decision may appeal through the District's student and parent complaint process, beginning at the central office level.

Special Education Students: The ARD Committee of a student who participates in the school's special education program and who does not perform satisfactorily on the math or reading portions of the third, fifth, or eighth grade STAAR assessment must meet to determine the manner in which the student will participate in an accelerated instruction program.

Texas Success Initiative Assessment

Prior to enrollment in a Texas public college or university, most students must take a standardized test called the TSI assessment. The purpose of the TSI assessment is to assess the reading, mathematics, and

writing skills that entering freshmen-level students should have if they are to perform effectively in undergraduate certificate or degree programs in Texas public colleges and universities. Achieving certain benchmark scores on this assessment for college readiness may also waive certain end-of-course assessment requirements in limited circumstances.

SAT/ACT (Scholastic Aptitude Test and American College Test)

Many colleges require either the American College Test (“ACT”) or the Scholastic Aptitude Test (“SAT”) for admission. Students are encouraged to talk with the Principal or designee early during their junior year to determine the appropriate examination to take; these examinations are usually taken at the end of the junior year. The Preliminary SAT (PSAT) and ACT-Aspire are the corresponding preparatory and readiness assessments for the SAT and ACT, and more information can be obtained on these assessments from the Principal or designee.

Participation in these assessments may qualify a student to receive a performance acknowledgment on his or her transcript under the foundation graduation program and may qualify as a substitute for an end-of-course testing requirement in certain circumstances. A student’s performance at a certain level on the SAT or ACT also makes the student eligible for automatic admission to a Texas public institution of higher education.

Texas English Language Proficiency Assessment System

The Texas English Language Proficiency Assessment System (“TELPAS”) is a system of statewide assessments administered to all Limited English Proficient (“LEP”) students in grades K–12. The TELPAS measure’s English ability based on the stages of language development of second language learners. These results will further the understanding of the educational needs of LEP students by providing a state-level measure of both their current academic English levels and their annual progress in English.

3.22 Tutoring

Burnham Wood Family of Charter Schools’ classroom teachers may provide tutoring after school and on Saturdays. Students will be required to participate in tutoring if they are failing a course, in danger of failing a course, failed the state examination, are not making progress on Curriculum Based Assessments and in alignment with state required supports. Teachers, tutors, and tutor coordinators will work together to identify skills that required remediation and supports. Teachers will work hand in hand with the tutors and tutor coordinators to provide appropriate material and work to support the needs of the students assigned to tutoring.

Dr. Joe E Gonzales’ Individualized Prescriptive Tutoring

Stage One - One-on-One Prescriptive Tutoring

- No more than 3 to 1 tutor per group
- Good for tutoring in core subjects
- State Testing Tutoring
 - Most frequently tested objectives
 - Most frequently passed objectives (student gain confidence)
- Most difficult objectives

Data collection will occur at the student and group level. It will include the objectives that students have not mastered so that specific instruction can be focused on said objectives. In addition, objectives will be weighted by difficulty so that time can be spent at all levels to increase fluency and confidence.

Important that student and tutor work well together. If the relationship does not work productively, switch tutors. Students need to be motivated to learn.

Training for staff provided for all staff working with students focused on disaggregating data, understanding TEKS objectives and student expectations, aligning tutoring plan for individual and small group tutoring, implementation of high yield strategies, reteaching, and CBA execution.

Stage Two - Prescriptive Tutoring in the classroom while continuing one-on-one

- Place tutor in classroom with teacher he/she works well with in a subject tutor is effective in. Ideally tutor is qualified in subject area.
- Tutor can be available to clarify teacher instructions, ask questions to clarify teacher instructions, and work with students on independent practice and group activities.
- Beneficial because it only sets students behind to be pulled-out of the classroom instruction for tutoring.

Data collection will occur at the student and classroom level. It will include the objectives that students have not mastered so that specific instruction can be focused on said objectives. It will include the scope and sequence for the course taught and spiraled access to previously covered objectives. Planning time will occur between the teacher and classroom tutor for effective use of the tutor in the classroom and strategies for particular student needs.

Training for staff provided for all staff on coteaching methodology, co-planning, push in support, planning and implementation of centers and projects, embedded professional development support, mentoring for successful support of students and benchmark.

Stage Three - Prescriptive Tutoring Portfolio (while continuing Stage 1 and 2)

- Student will have prescribed tutoring based on the Student Portfolio
- Portfolio made for each student
 - Tests (CBAs, state testing and other appropriate testing)
 - Writing Sample
 - Art and/or Extra Curricular Sample
 - Verbal Reading Sample
 - Social Emotional Learning/Mental Health overview, if appropriate
 - Teacher Documentation and Testimonials
 - Graduation Plan

Data collection is the keystone of the portfolio. Multiple staff members are included in the collection and creation of the portfolio as well as reviewing it with families and students.

Important so that Teacher/Tutor/Consultant will know exactly where the student stands, strengths and weaknesses, and best way student learns.

Important for student to take control of his/her progress – can see improvements and be motivated by them. This allows students to keep motivated on path to graduation. It also helps to build self-sufficiency in the students.

Training for staff provided in disaggregating data, creation of portfolio, communication of portfolio with stakeholders, updating portfolios and ongoing development and review of portfolio in alignment with prescriptive tutoring progress.

Stage Four - Educate Parents to Assist in Prescriptive Tutoring

- Parents can be involved in helping from home – homework, school involvement, extending tutoring.
- Adult classes at night keep the parents involved in school and having parents in school makes education visibly more important in the household.
- Helps build confidence and competency for the whole family.

Data collection will focus on communication of the portfolios with families.

Training for staff provided in adult learning, skill building in parents and families, implementation of family training, identification of family needs, and creation of training aligned to identified family needs.

3.23 Use of Films in the Classroom

Occasionally, selected videos will be shown in class. All videos that are not part of the adopted curriculum including any portion of videos must be approved by the school administration. Under no circumstances will a video or any other material containing adult material, sexually explicit material or extreme violence be shown. If you have special family requirements in the selection of these movies, we need a letter from you describing your concerns.

SECTION 4: STUDENT CODE OF CONDUCT

4.1 Purpose of the Student Code of Conduct

To function properly, education must provide an equal learning opportunity for all students by recognizing, valuing, and addressing the individual needs of every student. In addition to the regular curriculum, principles and practices of good citizenship must also be taught and modeled by school staff. To foster an orderly and distraction-free environment, the District has established this Student Code of Conduct in accordance with state law and the District open-enrollment charter. The Code has been adopted by the Board of Directors, and provides information to parents and students regarding expectations for behavior, consequences of misconduct, and procedures for administering discipline.

In accordance with state law, the Student Code of Conduct will be posted at each the District campus

and/or will be available for review at the campus office. Parents will be notified of any violation that may result in a student being suspended or expelled from the District. Students must be familiar with the standards set forth in the Student Code of Conduct, as well as campus and classroom rules.

The Student Code of Conduct does not define all types and aspects of student behavior, as the District may impose campus or classroom rules in addition to those found in the Student Code of Conduct. These rules may be posted in classrooms or given to the student and may or may not constitute violations of the Student Code of Conduct. When students participate in student activities, they will also be expected to follow the guidelines and constitutions that further specify the District organization's expectations, student behavior and consequences.

4.2 Authority and Jurisdiction

The District has disciplinary authority over a District student:

1. During lunch periods in which a student is allowed to leave campus;
2. During the regular school day and while the student is going to and from school on District transportation;
3. For any expulsion offense committed away from District property and not at a school-sponsored or school-related event, if the misconduct creates a substantial disruption to the educational environment;
4. For any expulsion offense committed while on District property or while attending a school-sponsored or school-related activity of the District or another school in Texas;
5. For any school-related misconduct, regardless of time or location;
6. When criminal mischief is committed on or off District property or at a school-related event;
7. When retaliation against a school employee or volunteer occurs or is threatened, regardless of time or location;
8. When the student commits a felony, including those provided by Texas Education Code §§ 37.006 or 37.0081, regardless of time or location;
9. While a student is participating in any remote / virtual classroom or other period of online instruction provided by the District;
10. While the student is attending any school-related activity, regardless of time or location; and
11. While the student is in transit to or from school or to or from school-related activities or events;

Reporting Crimes

In addition to disciplinary consequences, misdemeanor and felony offenses committed on campus or while attending school-sponsored or school-related activities will be reported to an appropriate law enforcement agency.

4.3 Standards for Student Conduct

Each student is expected to:

- Demonstrate courtesy, even when others do not.

- Behave in a responsible manner, always exercising self-discipline.
- Attend all classes, regularly and on time.
- Prepare for each class; take appropriate materials and assignments to class.
- Meet the District's standards of grooming and dress.
- Obey all campus and classroom rules.
- Respect the rights and privileges of students, teachers, and other the District staff and volunteers.
- Respect the property of others, including District property and facilities.
- Cooperate with and assist the school staff in maintaining safety, order, and discipline.
- Adhere to the requirements of the Student Code of Conduct.

4.4 General Conduct

Students will be expected to exhibit conduct that demonstrates respect for teachers, staff, and each other at all times. Students will practice mannerly behavior at all times in school and at School-sponsored events or activities, regardless of the location of those events or activities.

1. Each teacher has classroom "Rules of Conduct." School-wide and School events conduct will include:
 - Respect
 - Responsibility
 - Quality of Self and Work
2. Students should not bring items that will interfere with the learning and safety of themselves and others. Some items may include, but are not limited to:
 - water pistols
 - play guns or knives
 - marbles/steelies
 - jacks
 - firecrackers
 - any toy that has sharp points
 - tops
 - electronic games or toys
 - tobacco products, vaping and/or E-Cigarettes
3. Generally, we have stated our rules of discipline as listed below:
 - Students will:
 - demonstrate respect for all other at all times
 - demonstrate respect for School and private property
 - take responsibility for their own actions

Teachers will be instructed in positive behavior supports to use in the classroom. These include, but are not limited to, positive rules, positive redirection of behavior, and identification of the needs that drive the behavior. These strategies will universally be used throughout the School as school-wide intervention support practice. For example, public display of affection in a public-school setting is an inappropriate social behavior that diminishes one's quality of self. It is discouraged and when ignored

will lead to charges of insubordination.

The faculty may confiscate any item. Any item that has a potential for danger for any student in this facility should not be brought to School. The parent will be asked to pick up the item immediately, unless otherwise specified by the School. The student may be subject to further discipline action. Repeat incidents will result in further disciplinary action.

4.5 Discipline Management Techniques

Disciplinary management techniques are designed to improve conduct and to encourage students to adhere to their responsibilities as members of the school community. Disciplinary action will draw on the professional judgment of teachers and administrators and on a range of discipline management techniques. Discipline will be correlated to the seriousness of the offense, the student's age and grade level, the frequency of misbehavior, the student's attitude, the effect of the misconduct on the school environment, and statutory requirements.

Because of these factors, discipline for a particular offense, unless otherwise specified by law, may bring into consideration varying techniques and responses.

Techniques

The following discipline management techniques may be used—alone or in combination—for behavior prohibited by the Student Code of Conduct or by campus or classroom rules:

- Assignment of school duties such as cleaning or picking up litter.
- Behavioral contracts.
- Cooling-off time or "time-out."
- Counseling by teachers, counselors, or administrative personnel.
- Rewards for positive behavior.
- Demerits.
- Detention.
- Expulsion from the District, as specified in the expulsion section of the Code.
- Grade reductions for cheating, plagiarism, and as otherwise permitted by policy.
- In-school suspension, as specified in the suspension section of the Code.
- Out-of-school suspension, as specified in the suspension section of the Code.
- Parent-teacher conferences.
- Penalties identified in individual student organizations' extracurricular standards of behavior.
- Referral to an outside agency or legal authority for criminal prosecution in addition to disciplinary measures imposed by the District.
- Restorative discipline practices.
- School-assessed and school-administered probation (final warning contracts).
- Seating changes within the classroom.
- Sending the student to the office or other assigned area.
- Techniques or penalties identified in individual student organizations' extracurricular standards of behavior.

- Temporary confiscation of items that disrupt the educational process.
- Verbal correction, oral or written.
- Withdrawal of privileges, such as participation in extracurricular activities, field trips, eligibility for seeking and holding honorary offices, or membership in school-sponsored clubs and organizations.
- Withdrawal or restriction of bus privileges.
- Other strategies and consequences as determined by school officials.

Intervention Plan

A step-up behavioral consequence plan will be implemented across all campus.

- First Infraction – Verbal warning
- Second Infraction – Meeting with teacher and administrative personnel
- Third Infraction – Meeting with parent and administrative personnel
- Fourth Infraction – Saturday morning detention
- Fifth Infraction – Possible removal from an individual class; or may result in removal from school for insubordination

Corporal Punishment

the District will NOT administer corporal punishment upon a student for misconduct.

4.6 Procedures for Use of Restraint

School employees, volunteers or independent contractors are authorized to use restraint in the event of an emergency and subject to the following limitations:

- Only reasonable force as is necessary to address the emergency may be used.

All students are entitled to conferences, hearings, and/or appeals of disciplinary matters as provided by applicable state and federal law, and the District policy.

Prior to suspending a student for up to five days, the Principal or designee must attempt to hold an informal conference with the student to:

1. Notify the student of the accusations against him/her,
2. Allow the student to relate his or her version of the incident, and
3. Determine whether the student's conduct warrants suspension.

If the Principal or designee determines the student's conduct warrants suspension during the school day for up to five days, the Principal or designee will make reasonable efforts to notify the student's parent(s) that the student has been suspended before the student is sent home. The Principal or designee will notify a suspended student's parent(s) of the period of suspension, the grounds for the suspension, and the time and place for an opportunity to confer with the Principal or designee.

A student shall receive credit for work missed during the period of suspension if the student makes up work missed during the period of suspension within the same number of school days the student was absent on suspension.

Process for Out-of-School Suspensions Over Five Days (extended suspension) and Expulsion Notice

When the Principal or designee determine that a student's conduct warrants suspension for more than five days (extended suspension) or expulsion, but prior to taking any such action, the Principal or designee will provide the student's parent(s) with written notice of:

1. The reasons for the proposed disciplinary action; and
2. The date and location for a hearing before the Principal or designee, within five school days from the date of the disciplinary action.

The notice shall further state that, at the hearing, the student:

the District shall make a good faith effort to inform the student and the student's parent(s) of the time and place for the hearing, and the District shall hold the hearing regardless of whether the student, the student's parent(s) or another adult representing the student attends. The Principal designee may audio record the hearing.

Following the hearing, the Principal or designee will notify the student and the student's parent(s) in writing of his or her decision as to whether the student's conduct warrants suspension and/or expulsion and, if so, the decision shall specify:

1. The length of the extended suspension or expulsion, if any;
2. When or if the expulsion is not permanent, the procedures for re-admittance at the end of the expulsion period if at all; and
3. The right to appeal the Principal or designee's decision to the Board of Directors or the Board's designee.

The notice shall also state that failure to timely request such an appeal constitutes a waiver of further rights in the matter, and that disciplinary consequences will not be deferred pending the outcome of an appeal.

Appeal to the Board of Directors

The student or his or her parent(s) may appeal the extended suspension or expulsion decision to the Board

of Directors by notifying the Principal in writing within five calendar days of the date of receipt of the Principal or designee's decision. The student and/or his or her parent(s) will be informed of the date, time, and location of the meeting in which the disciplinary consequence will be reviewed. The Board of Directors will review the disciplinary administrative record and any audio recording or transcription/minutes of any hearings or conferences before the Principal or designee at a regular or specially called meeting in closed session as permitted by the Texas Open Meetings Act. The appeal shall be limited to the issues and documents considered during the disciplinary consequence, except that if the administration intends to rely on evidence not included in the expulsion record, the administration shall provide the student or parent(s) notice of the nature of the evidence prior to the Board of Directors' meeting.

The Board of Directors may, but is not required to, allow an opportunity for the student or parent(s) and the administration to each make a presentation and provide rebuttal and an opportunity for questioning by the Board of Directors. The Board of Directors will consider the appeal and may request that the administration provide an explanation for the disciplinary decision.

The Board of Directors will communicate its decision, if any, orally or in writing before or during the next regularly scheduled Board of Directors' meeting. If no decision is made by the end of the next regularly scheduled Board of Directors' meeting, the Principal or designee's decision with respect to the disciplinary action appeal shall be upheld. The Board of Directors may not delegate its authority to issue a decision, and any decision by the Board of Directors is final and may not be appealed.

As stated above, disciplinary consequences will not be deferred pending the outcome of an appeal of an extended suspension or expulsion to the Board of Directors.

No Credit Earned

Except when required by law, students will not earn academic credit during a period of expulsion.

4.11 Placement of Students with Disabilities

All disciplinary actions regarding students with disabilities (504 or special education under the IDEA) shall be conducted in accordance with applicable federal and state laws.

daily basis to make the most of the educational opportunities the school provides. Be sure your child comes to school each day prepared, rested, in appropriate attire, and ready to learn.

The District values the opinions of its students and parents, and the public it serves. Parents and students have the right to express their views through appropriate informal and formal processes. The purpose of this complaint and/or grievance policy is to resolve conflicts in an efficient, expeditious, and just manner.

The Board of Directors encourages parents and the public to discuss their complaints and grievances through informal meetings with the Principal or designee. Complaints and grievances should be expressed as soon as possible to allow early resolution at the lowest possible administrative level.

Neither the Board of Directors nor any School employee shall unlawfully retaliate against a parent or student for voicing a complaint and/or grievance.

The Superintendent or designee shall ensure that the school's complaint and grievance procedures are provided to all parents and students. The formal complaint and grievance procedure shall provide for any complaint and grievance to ultimately be considered or heard by the Board of Directors in accordance with Commissioner of Education rules.

For purposes of this policy, "days" shall mean school days, and announcement of a decision in the student's or parent's presence shall constitute communication of the decision.

Informal Conferences

A parent or student may request an informal conference with the Principal or designee, teacher, or other campus administrator within seven school days of the time the parent or student knew or should have known of the event(s) giving rise to the complaint and/or grievance. If the parent or student is not satisfied with the results of the informal conference, he or she may submit a written complaint and/or grievance form to the Principal or designee. Complaint and grievance forms may be obtained from the Principal's

office.

Formal Grievance Process

The formal complaint and grievance process provides all persons with an opportunity to be heard up to the Board of Directors if they are dissatisfied with an administrative response. Once all administrative procedures are exhausted, a parent and/or student can bring complaints and/or grievances to the Board of Directors, as outlined below.

A complaint and/or grievance must specify the harm alleged by the parent and/or student, and the remedy sought. A parent or student should not submit separate or serial complaints and/or grievances regarding the same event or action. Multiple complaints and/or grievances may be consolidated at the school's discretion. All time limits shall be strictly complied with; however, if an administrator determines that additional time is needed to complete a thorough investigation of the complaint and/or grievance and/or to issue a response, the administrator shall inform the parent or student in writing of the need to extend the response time and provide a specific date by which the response will be issued. Costs of any complaint and/or grievance shall be paid by the complainant and/or grievant.

Level One Complaint –Principal Review

A parent or student shall submit a written Level One Complaint or Grievance Form to the Principal or designee within three (3) days from the time the event(s) causing the complaint and/or grievance were or should have been known, or the same number of days following an informal conference with the Principal or designee. The school reserves the right to require the complainant and/or grievant to begin the complaint and/or grievance process at Level Two.

The Principal or designee will meet with the complaining and/or grieving parent and issue a written Level One Decision within five (5) days of the Principal or designee's receipt of the complaint and/or grievance.

Note: A complaint and/or grievance against the Superintendent shall begin at Level Three.

Level Two Complaint – Superintendent Review

If the parent or student is not satisfied with the Level One Decision, or if no Level One Decision is provided, the parent or student may file a written appeal to the Superintendent or designee. The appeal must include a signed statement of the complaint and/or grievance, any evidence supporting the complaint and/or grievance, and a copy of the written Level One complaint and a copy of the Level One Decision, if issued. The appeal shall not include any new issues or complaints and/or grievances unrelated to the Level One complaint. The appeal must be filed within three (3) days of the Level One Decision or the response deadline if no Level One Decision is made. The Superintendent or designee will meet with the complaining and/or grieving parent or student and issue a written Level Two Decision within five (5) days of receiving the written appeal.

Level Three – Board of Directors Review

If the student or parent is not satisfied with the Level Two Decision, or if no Level Two Decision is provided, the parent or student may submit to the Superintendent a written appeal to the Board of Directors. The request must be filed within three (3) days of the Level Two Decision or the response deadline if no Level Two Decision is made. The Superintendent or designee will inform the student or parent of the date, time,

and place of the Board of Director's meeting at which the complaint and/or grievance will be placed on the agenda for consideration by the Board.

The Board of Directors will consider the appeal, and may allow a presentation by the parent or student and the school administration. The appeal will be limited to the issues and documents considered at Level Two, except that if the administration intends to rely on evidence not included in the complaint and/or grievance record, the administration shall provide the student or parent notice of the nature of the evidence at least three days before the Board of Directors' meeting.

The District will determine whether the appeal will be presented in open or closed session in accordance with the Texas Open Meetings Act and other applicable law.

The presiding officer may set reasonable time limits and guidelines for any presentation of evidence, including an opportunity for the student or parent and administration to each make a presentation and provide rebuttal and an opportunity for questioning by the Board of Directors. The Board of Directors shall hear the complaint and/or grievance and may request that the administration provide an explanation for the decisions at the preceding levels.

The Board of Directors shall communicate its decision, if any, orally or in writing before or during the next regularly scheduled Board meeting. If no decision is made by the end of the next regularly scheduled Board meeting, the decision being appealed shall be upheld. The Board of Directors may not delegate its authority to issue a decision, and any decision by the Board of Directors is final and may not be appealed.

Student Acceptable Use Policy

This Student Acceptable Use Policy (“Policy”) sets forth the guidelines governing the use of all the District technology resources by students while on or near school property, in school vehicles and at school-sponsored activities on- or off-campus, as well as the use of all District technology resources via off-campus remote access.

The District reserves the right to modify the terms and conditions of this Policy at any time.

Introduction

The District is pleased to offer students access to school computers, communications systems,¹ the Internet and a wide array of other technology resources to promote educational excellence and enhance the classroom experience. Technology can expand a student’s access to educational materials, prepare students by providing workforce skills and college readiness, and lead to personal growth. the District recognizes, however, that access to technology must be given with clear guidelines, expectations, and supervision to protect students. This Policy is designed to make parents, teachers and administrators partners to teach students how to be responsible users of technology.

the District will educate all students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response.

the District will hold ALL students responsible for their use of technology, whether school-provided or personal, and they are expected to act in an appropriate manner in accordance with campus procedures, District policy and procedures, and legal requirements. This applies to the use of all District technology resources by students while on or near school property, in school vehicles and at school-sponsored activities on-or off-campus, as well as the use of all District technology resources via off-campus remote access.

This Policy shall be used in conjunction with the Student Code of Conduct.

Using the Internet and Communications Systems

the District provides technology resources to students for the express purposes of conducting research, completing assignments, and communicating to the faculty, staff, and others to complement their educational experience. Just as students must demonstrate proper behavior in a classroom or school hallway, they must also behave appropriately when using any the District computer networks, personal electronic devices, personal device data plans, software or websites sanctioned or used by the District, and any personal technology used in an educational setting. Access to the District’s technology is a privilege, not a right. Students must comply with all standards set forth in this Policy at all times in order to maintain the privilege of using its technology resources.

¹ “Communication Systems” include educational-related communications between and among the District and students by email, web sites, cell phones, pagers, text messaging, instant messaging, blogging, podcasting, listservs, and/or other emerging technologies.

Students and their parents are advised that any information stored on and/or sent through the District's technology resources is the property of the District. Accordingly, in connection with ensuring student safety, the District network administrators and/or other appropriate personnel will engage in periodic reviews and searches of stored files and communications stored on District technology resources to maintain system integrity and ensure that students are complying with this Policy and using technology in a responsible and appropriate manner. Such reviews will include students' use of school-approved educational websites or software to ensure that they are using it in an appropriate manner consistent with the District's expectations for such use. Students do not have a reasonable expectation of privacy over any information stored on District technology.

the District may allow students to bring personal technology devices (i.e., tablets, e-readers, smartphones) for use during the school day for authorized curricular purposes. Students that use personal technology devices will be required to comply with all aspects of the Acceptable Use Policy and/or the Student Code of Conduct in the use of such devices at school. A student's personal technology device may be subject to search by campus administrators in connection with determining if a student has committed a violation of this Policy and/or the Student Code of Conduct.

the District remains committed to integrating technology to enhance its curriculum for students, which it believes increases students' educational experience for them and allows for better preparation for job skills and college success. Access to the Internet enables students to use extensive online libraries, databases and websites selected by the District for use in instruction.

Although the District strives to ensure that any Internet access avoids any inappropriate material, students and their families should be aware that some material accessible on the Internet may contain information that is inaccurate, profane, sexually oriented, defamatory, and potentially offensive to some. The District does not condone any student accessing, or attempting to access, such material, and it remains deeply committed to safe Internet use. The District takes steps to minimize students' opportunities District device with Internet access shall have a filtering device or software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act ("CIPA") and/or as determined by the school administration. This software is not fail-safe, however, and while at school, the District strives to ensure that students' Internet use is supervised, it is possible that the software may miss some content, or students may find a way around the software to access inappropriate material. For this reason, this Policy is strictly enforced, and students who misuse any the District technology outside its intended purpose, including the use of school-recommended websites for purposes outside the educational intent, will be in violation of this Policy, which may lead to disciplinary consequences for the student.

With this in mind, the District believes that the benefits of allowing student access to the Internet to enhance the educational experience outweighs the potential harm to students.

Proper and Acceptable Use of All Technology Resources

the District requires students to use all technology resources, including any websites or software used in the classroom, in a manner consistent with the following rules. the District will hold students responsible for any intentional misuse of its technology resources, or any other failure to comply with the rules in this Policy. When using the District technology systems outside the school, parents should strive to ensure

that students do so in compliance with the rules set forth in this Policy, as the District is unable to supervise students' technology use at home. The District's content-filtering software will not work in a student's home, so parents are encouraged to place content-filtering software on their home computers or take any other steps necessary to monitor students' Internet usage at home.

Students, who unintentionally access inappropriate material in connection with their use of any the District technology, including websites and software used in the classroom, shall immediately stop accessing the material and report it to a supervising adult. The District shall take immediate steps to ensure such material is blocked from further view at school by its content-filtering software.

Electronic Communication Device Commitment Form

Electronic communications at school and at school-related functions are subject to regulation by the District .

This Electronic Communication Device Commitment Form grants authority and permission to the District to regulate electronic communication devices when these devices are brought to and/or used while on school property or when attending school-related functions and events. Such communication devices include but are not limited to cellular phones, pagers, PDAs, and pocket computers. These regulations are made necessary in light of the unique opportunities these devices create for violations of law and school policies, and to perpetrate conduct disruptive of an educational environment essential to the school's educational program. These concerns are exacerbated by electronic security protections and the personal size of these devices, which are often concealed in pockets and purses.

Therefore, all students who would possess or use such devices on school property or at school-related activities are required to sign this form together with their parent, guardian or other adult person having the authority of a parent for school purposes.

Each of you, by your signature below, agrees to the following:

- The possession and use of cellular phones, pagers, PDAs, and other electronic communication devices by a student on school property or at school-related events is subject to regulation by the District.
- If a student possesses such devices on school property or while attending school-related events, the District is authorized and has parent(s)/guardian's full consent to confiscate, power on or off, manipulate and do all things necessary to search student's device and recover or intercept communications (including but not limited to text messaging) when reasonable suspicion exists that such device has been used to transmit or receive communications in violation of law, the Student Code of Conduct, school policy or regulation.
- I further understand, agree, and consent that an electronic communication device used or possessed in violation of law, the Student Code of Conduct, school policy or regulation is subject to confiscation and that the District is not liable for any loss of or damage to confiscated devices.
