### April 2021 Newsletter

#### Principal's Message

"Autism, or autism spectrum disorder (ASD), refers to a broad range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication." Some children with autism may have trouble understanding the world around them.

A child with autism might have trouble:

- talking and learning the meaning of words
- making friends or fitting in
- dealing with changes (like trying new foods, having a substitute teacher, or having toys moved from their normal places)
- dealing with loud noises, bright lights, or crowds

*Georgina Heras-Salas, Principal*
